MONROE DOCTRINE SAVED

OPEN MUTINY THREATENED BY RUSSIA YANKS

Men to Revolt if Wilson Does Not Tell Policy.

BULLETIN.
Chicago Tribune—New York Times Cable
[Copyright: 1919.]

COPENHAGEN, April 10.—From Warsaw it is reported that the Bolsheviks are evacuating Vilna.

BY ARTHUR SEARS HENNING
Washington, D. C., April 10.—[Special]—General mutiny of American troops in the Russian Archangel district is openly threatened unless some definite statement from Washington is forthcoming in the near future with regard to removal of the troops from that section of the world at the earliest date.

This was disclosed in a code message to the war department received from Archangel on March 31 detailing the revolt of a company of American troops against an order to go to the front, the first public intimation of which leaked out in press dispatches to-day.

Give Out Statement.

Several hours after the publication of the report in the press the war department made public the following paraphrase of the code message from Archangel:

"Yesterday morning, March 30, a company of infantry, having received orders to go to the railroad front, was relieved out of the barracks for the purpose of packing sleds for the trip across the river to the railroad station. The noncommissioned officers in charge of the packing crew reported to the officers that the men refused to obey. At this some of the officers took charge, and all except one man began reluctantly to pack, after a considerable delay. The soldier who continued to refuse was placed in confinement.

Colonel Meets Men.

"Col. Stewart, having been sent for, arrived and had the men assembled to talk with them. Upon the condition that the prisoner above mentioned was released, the men agreed to go. This was done, and the company then proceeded to the railroad station and remained there for the front.

"That they would not go to the front line positions was openly stated by the men, however, and they would only go to Obozerskaya. They also stated that general mutiny would soon come if there was not some definite statement forthcoming from Washington with regard to the removal of American troops from Russia at the earliest possible date."

Officials of the war department made no comment on the messages.

May Bring Fixed Policy.

In official quarters it was believed that the demonstration of hostility among American troops to carry on a war against the Russians when the United States had not declared war, will result in a speedy determination of a fixed policy by the conferees at Paris. One official declared that there are only two roads open for dealing with the Russian bolshevik problem, "to fight or let alone." In various quarters the belief was expressed that the peace conference is becoming agreed upon the necessity of adopting the "let alone" policy, and that if this is pursued the waning strength of the bolsheviks will soon completely collapse.

Allied Troops Affected.

The peace conference, it was declared, are well aware of the growing hostility of the troops of all the allies toward going into Russia to fight, and the popular feeling in the United States against such operations as are being carried on at Archangel is declared to be shared by the people in Europe. Reports to this effect are reaching diplomatic representatives here almost daily.

Of course it has been the announced American purpose for some time to withdraw as soon as navigation opens, but, in the meantime, the troops are forced to keep on fighting, and this circumstance is adding to the embarrassment abroad and to the popular indignation at home.

Futility of Occupation.

The futility of the occupation of the ports of the Black sea was declared to be proved by the fact that only by massing considerable numbers of troops could the bolsheviks in the in-

\$10,000 JEWELS VANISH ON ROAD TO BLUE ISLAND

Case Containing Gems Is Left on Curb or Jolted from Car.

Jewels valued at \$10,000, which Mrs. L. C. Fowler, wife of Cecil G. Fowler of Lafayette, Ind., banker and hotel owner, had taken precautions to protect on leaving home for Chicago several days ago, were lost yesterday on the road between this city and Blue Island.

Mrs. Fowler feared to leave the jewels, consisting of diamonds and pearls, in their home when she decided to move to Chicago with her husband, so she packed them in a velvet jewel case and came to Chicago without mishap.

Mr. and Mrs. Fowler and H. H. Dunbar, manager of the Fowler hotel, owned by Mr. Fowler, started back toward Lafayette from the Blackstone hotel at 2 o'clock yesterday afternoon.

Mrs. Fowler placed her jewels in their case, which she deposited in a black leather suitcase covered with black alpacas. The party carried three other suitcases. The case containing Mrs. Fowler's jewels was placed in the rear seat.

Start with Care.

"Take good care of that suitcase; it's got my jewelry in it," said Mrs. Fowler to Mr. Dunbar, who seated himself beside it while Mrs. Fowler took the machine he lifted out the suitcase containing the jewels and also his own, which was beside it. A man was placed on the running board and the other sat on the curb.

At Fifty-ninth street and Western avenue Mr. Fowler stopped to put up the side curtains. Some of the curtains were underneath the rear seat, so as Mr. Dunbar got out of the machine he lifted out the suitcase containing the jewels and also his own, which was beside it. A man was placed on the running board and the other sat on the curb.

Whether the grip with Mrs. Fowler's jewels was left standing on the curb or on the running board is unexplained.

When the party had proceeded about ten miles Mrs. Fowler looked back to see if her grip was in the seat. It wasn't.

Search Road in Vain.

Mr. Fowler turned and drove back over the route they had traveled with out finding the missing grip. The party drove to the Englewood police station and reported the loss, after notifying THE TRIBUNE. The police made a search in the neighborhood where the party had stopped, but without success. The party returned to the Blackstone hotel to await results.

DOCTOR THINKS HE HAS CURE FOR DIABETES

New York, April 10.—[Special]—Dr. Thomas Webster Edgar, 756 West End avenue, asserted today that he had discovered a cure for diabetes.

"First," he said, "I convinced myself that diabetes is caused by functional defects in the pancreas—by the failure of certain parts of the pancreas to do their work."

"I tried the blood of rabbits and found what I wanted. In obtaining the blood I first put the rabbit upon a treadmill and kept it there until it reached a stage of fatigue. Then I drew the blood, and after heating it to 60 degrees centigrade I injected the corpuscles into the serum. When this was done the diabetes had been treated after the manner I have discovered. I inject it immediately subcutaneously."

Advances Due to War.

The following shows details of war advances in railroad wages:

War advances in wages by railroad companies in 1918-1919:

To trainmen (Adamsen eight hours).....\$ 70,000,000
To other employes.....\$ 280,000,000

War advances in wages by railroad administration, 1918-1919:

First cycle (Lane board):
To trainmen.....\$ 166,000,000
To other employes.....\$ 240,000,000

Total.....\$ 406,000,000

Total advanced by government.....\$ 510,000,000
Total advanced by government.....\$ 610,000,000

Average of \$600 for each employe.

Total wage advances since beginning of war.....\$1,368,000,000

Average of \$600 per employe.

The total war advance in wages on English railroads is \$400,000,000—an average of \$70 for 700,000 employes.

THE WEATHER

FRIDAY, APRIL 11, 1919.

Sunrise, 6:16 a. m.; sunset, 7:26 p. m. Moon sets 4:41 a. m.; rises 10:41 p. m. Cloudy, with some visibility.

Partly cloudy and somewhat colder Friday; warm Saturday; probably some rain Sunday.

Unsettled weather again Saturday night.

Friday, somewhat cool east portion; Saturday increasing cloudiness and warmer.

6 p. m. 58 2 p. m. 46 10 p. m. 46
7 p. m. 58 3 p. m.

Should this compromise be effected it would remove one of the last large obstacles to the consummation of the treaty, though many lesser subjects still remain open.

Wilson Makes Two Calls.

Between sessions of the council of four, which took up more than the usual day's activities two calls were made on Queen Mary. One was in the morning, when he was accompanied by Dr. Wilson, his physician, and the other in the afternoon on Baron Makino, chief of the Japanese delegation to the peace conference.

Every attempt by the queen to switch the conversation to matters political met with smiling replies on the part of the president, who was successful in confining the talk to social topics.

The call at the big hotel where the Japanese delegation is living afforded the attachés and residents of the hotel some moments of interest. The president was recognized as he entered the lobby and interest was centered in him as he moved to the elevator. The climax of this situation was reached when the car stuck midway between floors.

It was impossible for the elevator boy to move the car up, so he brought it back to the lower floor. This necessitated the president making his way to the apartments of Baron Makino by way of the stairs through a crowd of curious persons and chagrined hotel attendants.

Economic Situation Grave.

The supreme economic council today adopted a resolution calling the attention of the associated governments to the extreme gravity and urgency of the present economic situation in Europe, an official announcement says.

The council also decided that negotiations for the blockade of German Austria and the Adriatic; the reopening of commercial relations with Estonia, Latvia, and Lithuania; the removal of restrictions on trade with Poland, and the reopening of Swiss traffic on the Rhine.

The coal fields of the Tschener district in dispute between Czechoslovakia and Poland present one of the most difficult problems before the peace conference.

CONDONE ALLIED LENIENCY

BY RICHARD V. OULAHAN, Chicago Tribune-New York Times Cable. Copyright 1919 J.

PARIS, April 10.—While progress seems to have been made toward an agreement on peace terms, there is no overlooking the hard fact that the interallied negotiations are now in a most delicate stage. They are complicated by internal, political, and a variety of local interests difficult for Americans to understand.

Prime Minister Lloyd George is being pressed heavily by the influential portion of the British press. It is charged that he is inclined to be too lenient with Germany and is catering to the Bolsheviks. Coupled with this is the suggestion that Britain is not sticking by her ally, France.

The French press finds fault with the conduct of the former because it is being raised at French interests, as opposed to German interests, are given scant consideration.

Efforts along this line may have the effect of reviving irritation in the American delegation. They directly imply criticism of President Wilson's attitude in the peace conference. They are construed as designed to undermine strict adherence to the president's four-point program.

SIGN KAISER INDICTMENT.

The decision yesterday on the former Kaiser was unanimous, and all four, Mr. Wilson and the three premiers, signed a document indicting the former Kaiser and directing that he be brought to trial.

The charges on which the former Kaiser will be tried are violation of international morality and violation of the sanctity of treaties. For these crimes the former Kaiser is regarded by the council of four as personally responsible. These charges are more political than legal.

The decision of the council of four, it was settled that Wilhelm Hohenlohe, whatever his particular fate may be, will never again be a free man.

Nobody is more anxious than the president to maintain the closest relations between America and France. The fact that America and Britain had been brought closer together in the peace conference than in any other place meant, for one thing, that the two great English speaking nations believed the absolute crushing of Germany was not essential to the future security of France. This great cordial feeling is expected to prove a marked factor in future Anglo-American relationship. Now attempts apparently are being made to drive a wedge between the American and British delegations.

NEW DRAFT FOR LEAGUE CLEARS UP OBJECTIONS

Withdrawal from Pact Is Provided For—Other Changes.

BY RICHARD V. OULAHAN, Chicago Tribune-New York Times Cable. Copyright 1919 J.

PARIS, April 10.—At the meeting of the League of Nations commission tonight at the Hotel Crillon under the chairmanship of Sir Arthur Henderson, the committee on revision presented its revised draft of the league covenant.

The new draft contains amendments authorized by the league commission and many changes in the phraseology intended to correct the looseness of the first draft.

In reading the outline it is evident that much effort was made by the revision committee to meet objections to the first draft raised in the United States senate and elsewhere in America.

The council also decided that negotiations for the blockade of German Austria and the Adriatic; the reopening of commercial relations with Estonia, Latvia, and Lithuania; the removal of restrictions on trade with Poland, and the reopening of Swiss traffic on the Rhine.

The coal fields of the Tschener district in dispute between Czechoslovakia and Poland present one of the most difficult problems before the peace conference.

CONDONE ALLIED LENIENCY

BY RICHARD V. OULAHAN, Chicago Tribune-New York Times Cable. Copyright 1919 J.

PARIS, April 10.—While progress seems to have been made toward an agreement on peace terms, there is no overlooking the hard fact that the interallied negotiations are now in a most delicate stage. They are complicated by internal, political, and a variety of local interests difficult for Americans to understand.

There is another provision similar to Article 4 as to the council, except that each state is given only one representative.

There is the following provision in Article 7: "All positions under, or in connection with the league, including the secretaries, shall be open equally to men and women." Article 1, to which the Monroe doctrine amendment will be offered, is unchanged.

There is a specific provision in Article 15 that in the event of a report by the council which is not unanimous in the sense there mentioned, the members of the league reserve the right to take such action as they consider necessary for the maintenance of right and justice of right.

There is a new provision in Article 19 [now 21], regarding mandates which adds that mandatories shall be given to nations "who are willing to accept it."

Provides for Withdrawal.

Article 1 contains the following provision: "Any member of the league may, after two years' notice of its intention, so to withdraw from the league, provided that all its international obligations and obligations under the covenant shall have been fulfilled at the time of its withdrawal."

Article 15 contains the following provision: "If the dispute between the parties in claimed by one of them and is found by the council to arise out of a matter which by international law is solely within the domestic jurisdiction of the party, then the party may make an effort to stabilize itself and solve its own problems."

No Diplomatic Recognition.

The impression has been created, however, that there will be no parleying of a diplomatic nature with the Bolsheviks; that there is no in the mind of President Wilson any idea of receiving a Bolshevik diplomatic mission, or sending an ambassador to Moscow or sending an ambassador to Petrograd.

Senator Johnson of California, who has been insistent for months that American troops should come out of northern Russia, declared today:

"Before me is a letter from an officer of the American forces in north Russia, in which he says that the morale of the American boys is very poor, and that the men have lost their fear of death, and that the morale of the American boys has become thoroughly fatigued with weather conditions such as those at Archangel.

While the action of the company at Archangel undoubtedly is mutinous under any strict interpretation of the military code, it renders the men liable to severe disciplinary action, under ordinary circumstances, war department officials did not believe such action would result.

Women Ask Suffrage Be Put in League Covenant

PARIS, April 10.—The league of nations commission received today a deputation from the International Woman's Suffrage council, which asked that the principle of suffrage for women be recognized in the covenant of the league as one which should be applied throughout the world as soon as civilization and the democratic development of each country may permit.

PEACE COUNCIL IN RACE WITH SOVIETS IN EUROPE

1—The council of four has decided that the Saar valley shall be supervised by the League of Nations for a period of fifteen years, while France is given economic control of the coal fields up to an amount to recompense her for the losses in the Lens mining district.
2—German government troops have recaptured the Krupp plant at Essen which had been seized by strikers.
3—Government troops have taken Wurzburg in Bavaria from the Spartacists. The Bavarian diet has been moved to Bamberg.
4—A Soviet movement is reported under way in Baden.
5—Government troops have recaptured the citadel and military headquarters of the Spartacists at Magdeburg.
6—Much unrest is reported from Szczecin and communists in the Szczecin district have demanded Szczecin be made a Soviet republic. Strikes of metal workers at Zielona Gora and miners are reported.
7—The declaration of a Soviet republic is reported in Salzburg, German Austria, near the Bavarian border.
8—Violent fighting between the Hungarians and Czechs is reported at Ungvar.

OPEN MUTINY THREATENED BY RUSSIA YANKS

Men Plan Revolt if Wilson Does Not Tell Policy.

(Continued from first page.)

terior is resisted, and with the control of the Ukraine, especially in the hands of the Bolsheviks it would be impossible to attract to Odessa the grain of that region.

There is reason to believe that the withdrawal of the American expedition, after two years' notice of its intention, so to withdraw from the league, provided that all its international obligations and obligations under the covenant shall have been fulfilled at the time of its withdrawal."

Article 15 contains the following provision: "If the dispute between the parties in claimed by one of them and is found by the council to arise out of a matter which by international law is solely within the domestic jurisdiction of the party, then the party may make an effort to stabilize itself and solve its own problems."

No Diplomatic Recognition.

The impression has been created, however, that there will be no parleying of a diplomatic nature with the Bolsheviks; that there is no in the mind of President Wilson any idea of receiving a Bolshevik diplomatic mission, or sending an ambassador to Moscow or sending an ambassador to Petrograd.

While the action of the company at Archangel undoubtedly is mutinous under any strict interpretation of the military code, it renders the men liable to severe disciplinary action, under ordinary circumstances, war department officials did not believe such action would result.

... Every day makes an American man with extensive connections in Europe said to have found a circular letter to his agents on the business conditions in his particular line reproduced in the information service of the censoring government.

The Three Hundred and Thirty-ninth Infantry of the Eighty-fifth division of the bulk of the American contingent in the Archangel region. The unit is almost wholly composed of service personnel from Michigan. It is commanded by Col. Gen. E. Stever, of the regular army, who served in some of the most northerly posts in Alaska, and became thoroughly familiar with weather conditions such as those at Archangel.

Before any strict interpretation of the military code, it renders the men liable to severe disciplinary action, under ordinary circumstances, war department officials did not believe such action would result.

... Before me is a letter from an officer of the American forces in north Russia, in which he says that the morale of the American boys is very poor, and that the men have lost their fear of death, and that the morale of the American boys has become thoroughly fatigued with weather conditions such as those at Archangel.

While the action of the company at Archangel undoubtedly is mutinous under any strict interpretation of the military code, it renders the men liable to severe disciplinary action, under ordinary circumstances, war department officials did not believe such action would result.

... Every day makes an American man with extensive connections in Europe said to have found a circular letter to his agents on the business conditions in his particular line reproduced in the information service of the censoring government.

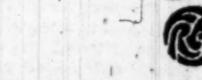

To a greatly enlarged staff the Frey organization has recently added J. W. Poncelle, an artist whose prints have all the quality of real painting and are a genuine revelation in the field of photographic art as applied to business. His knowledge of the lens, his mastery of lighting and his ability in staging the subjects of his prints make his much-sought-after work years in advance of ordinary photographic advertising illustrations.

LANSING CABLE HALTS JAP BILL IN CALIFORNIA

State Senator Inman Decides Not to Insist on a Test Vote.

Sacramento, Cal., April 10.—A decision not to press an immediate vote on the report of the senate rules committee denying him permission to introduce a bill preventing Japanese leasing agricultural land in California was reached by Senator Inman in the midst of his demand for a record vote on the senate on the report.

Inman demanded a vote on the report after the senate had received a cablegram from Secretary of State Lansing saying "it would be particularly unfortunate" to have the bill introduced at this time.

Cable from Lansing.

ROUGHHOUSE IN GERMAN SOVIET PARLIAMENT

Incompetent Presiding Officer Gets Legislation in a Tangle.

BERLIN, Wednesday, April 9.—[By the Associated Press.]—Delayed.—The Soviet congress is developing into a rough and tumble parliament. This was marked today by a recurrence of clashes between the Majority Socialists and the Independents. Much of the confusion is due to the incapacity of the presiding officer, who is unversed in the rules of procedure.

A resolution of the Independents, demanding that the government meet the claims of the Ruhr strikers, resulted in a two hour tumult this morning marked by vicious exchanges.

The Majority Socialists, discovering that they had been tricked into voting for the resolution of the Independents, which permitted of a doubtful interpretation, demanded that it be withdrawn.

This precipitated another heated debate, which finally resulted in the Majority Socialists carrying a motion in favor of meeting the Ruhr demands as justifiable so as to avoid the threatened flooding of the mines.

Necks Men Rule Magdeburg.

BERLIN, April 10.—[By the Associated Press.]—Magdeburg, the capital of Prussia Saxony, where serious disorders occurred early in the week, again is in control of the German government forces, Gustav Noske, minister of defense, declared in an interview today in the Tageblatt. Herr Noske reviewed the situation as follows:

"Magdeburg is completely in our hands. Conditions in Bavaria are such that if Premier Hoffmann holds out a short time we will be able to solidify opinion in favor of a legitimate government. If no other way is possible Munich will be compelled by arms to return to order. If blood is spilled it will be on the heads of communist masters."

Bavaria Jolts Russia.

Diplomatic relations have been established between the Russian and Bavarian soviet governments, according to the communists of the Vogtland district, southwestern Saxony have issued a communiqué that Saxony be made a soviet republic, while the metal workers at Zwicker and a large proportion of the Saxon miners have gone on strike.

Eisen Strikers Arrested.

BERLIN, April 10.—[By the Associated Press.]—The members of the strikers committee in Eisen were arrested today by government troops under instructions from Berlin, a dispatch from Eisen reports. Civilians then attacked the troops, but after considerable firing, the civilians were dispersed.

Deputies from Kissingen Report.

Germany and Austria's war has struck against the Bavarian soviet republic and that the town now is in the hands of government troops. Heavy fire occurred when government troops stormed the royal palace and captured the railway station.

The release of Georg Ledebur, which had been demanded by the soviet congress in Berlin, had been received, a dispatch from Berlin says.

Proclaim New Soviet.

BERLIN, April 10.—The proclamation of a soviet republic in Salzburg, Austria, reported in an American dispatch today to the Central News, Salzburg is near the Bavarian border.

Germany in Bad Condition.

WEIMAR, April 9.—[By the Associated Press.]—[Delayed.]—Germany's financial condition was set forth by Minister of Finance Schiffer today in addressing the national assembly on the budget for 1919. Treasury bills on paper value marks and have since risen to \$3,700,000,000 marks (about \$18,000,000,000). The minister stated the deficit would not be less than \$3,000,000 marks.

"The question arises," Dr. Schiffer continued, "whether the German people can support the enormous burden of taxation. The capacity for work and the love of work will have to be re-enforced."

"When we are faced with a bad weather which kept the British from sailing up at closer quarters. On the contrary, it was a fine, clear afternoon with a fairly smooth sea. The British say that with this kind of weather they would have routed us in short order, but that is just what happened. After the battle started we had destroyed the superdreadnaught Queen Mary. Next we sunk the Black Prince. The battle began at 5:30 in the afternoon as our fleet was entering the North sea from the Skaggerak."

'MIRACULOUS' IS HAIG'S TERM FOR ALLIED VICTORY

British Chief Says the Entente Could Not Use Full Might Before 1918.

LONDON, April 10.—[British Wireless Service]—Field Marshal Sir Douglas Haig, in his final dispatch now made public, presents an important review of the war and describes in detail the expansion and achievements of the British army, with many remarkable stories and figures.

He treats the operations on the western front as a single continuous campaign, in which can be recognized the same general features and necessary stages that, between forces of approximately equal strength, have marked all the conclusive battles of history.

"The high water mark of our fighting strength in France," he writes, "was only reached after two and a half years of conflict, by which time heavy casualties had already been incurred. It was not until midsummer, 1916, that the artillery situation became even approximately adequate to the conduct of major operations."

Lack of Guns and Shells.

"During the Somme battle artillery shells had to be watched with the greatest care. During 1917, the munition was plentiful, but the gun situation caused anxiety. It was only in 1918 that artillery operations could be conducted without any limiting consideration beyond that of transport."

The margin with which the German onslaught of 1914 was stemmed so thoroughly, he says, was due to the subsequent struggle, which was so severe that what "miraculous" is hardly too strong a term to describe the recovery and ultimate victory of the allies.

"The breakdown of Russia in 1917 probably prolonged the war by a year, and the military situation in Italy in the autumn of 1917 necessitated the transfer of five British divisions to Italy at a time when their presence in France might have had far-reaching effects."

Heavy Losses on Defensive.

Sir Douglas records the interesting fact that more than half the British casualties in the fighting of 1918 occurred during the five months from March to July, when the allies were on the defensive.

"The rapid collapse of Germany's military power in the latter half of 1918," he says, "was the logical outcome of the fighting of the two previous years. It would not have taken place but for that period of ceaseless attrition which used up the German reserves. It is in the great battles of 1916 and 1917 that all have to seek for the secret of our victory in 1918."

Woman Held on Charge of Murder in Convent

Traverse City, Mich., April 10.—On a charge of murder in the first degree Mrs. Stanislaw Lipernyak was bound over for trial by term of the Circuit court at Leland May 13, and held for the death of Sister Mary Jean "John," who disappeared from the convent at Isadore eleven years ago, and whose remains were found buried beneath the church at Isadore recently. The Circuit court convenes at Leland May 13.

5,000 YANKS ON WAY HOME ON THREE SHIPS TAKEN FROM ENEMY

WASHINGTON, D.C., April 10.—Three of the twelve German liners allocated to the United States for troop transport service have left Brest with approximately 5,000 officers and men of the American expeditionary force.

The *Patriot*, the first to sail, is due at Boston April 20; the *Cheval de Bres* is due at New York April 22, and the *Kaiserin Auguste Victoria* is expected to reach the same port April 16.

Several others of the twelve vessels now are loading troops at French ports and the entire fleet is expected to be in service within a short time. Upon the arrival of the ships at American ports, 50,000 men will be sent to increase their troop carrying capacity.

The organizations aboard the *Kaiserin Auguste Victoria* have not been announced by the war department.

Included among those aboard the *Patriot* are the One Hundred and Second and One Hundred and Third machine gun battalions and the One Hundred and First field artillery.

The *Cheval de Bres* has on board the personnel of base hospitals Nos. 5, 14, 21, 44, 50, 72, 97, and 202; field hospital No. 42, and six casual companies.

The transport *Saxonia* will arrive at New York April 17 with the Three Hundred and Thirty-eighth ambulance company, eight convalescent detachments, and thirty-five casual officers.

The *Wassail* sailed from Brest April 8 for New York with one casual company of Illinois troops.

Transport Saxonica Will Arrive at New York April 17 with the Three Hundred and Thirty-eighth Ambulance Company, Eight Convalescent Detachments, and Thirty-five Casual Officers.

LONDON, April 10.—The former North German Lloyd liner *Prins Friedrich Wilhelm* sailed from Liverpool April 9 with New York as its destination.

NANSEN TO TALK FOOD TO RUSSIA?

LONDON, April 10.—Herbert Hoover, director general of the interallied relief organization, has requested Dr. Fridtjof Nansen, head of the Norwegian food mission to the United States, to become chief of an international neutral committee to investigate the possibility of feeding the population of Russia on condition of the cessation of hostilities in Russia, according to a dispatch to the Exchange Telegraph company from Copenhagen.

The dispatch says that \$50,000 monthly will be required to carry out the program.

CHICAGO MISSION IN MEXICO CITY AFTER FINE TRIP

Armed Guards but No
Bandits on Model Train
and Roadbed.

BY GLENN GRISWOLD.

Mexico City, April 10.—[Special]—
The Mississippi Valley association's
delegation of business men studying
conditions in Mexico was given its first
official reception today as guests at
the inauguration of Secretary of
Finance Cabral and was later re-
ceived by the American club.

These business men found in the
atmosphere of the meetings a co-
operation on the part of the govern-
ment in their work of surveying
the possibilities for mutual business de-
velopment.

The delegation left Laredo, preceded
by a train carrying a company of
soldiers. From Saltillo they were ac-
companied by a carload of regular sol-
diers as well as the usual guard of a
car of rurals. They crossed the International
bridge in triplicate. Pre-
parations for armed conflict were every-
where about them. Evidences of war's
destruction were constantly in view
from the car windows and reports of
banditry were whispered through the
train.

Fine Trip, Fine Railroad.

At what would be 2 o'clock this
morning in Chicago, the party finished
thirty-six hours and 1,200 miles of the
most delightful journey any of them
had ever made. No railroad in the
United States has a roadbed to equal
that of the National Railways of Mex-
ico and few may claim comparison to
it. The roadbed is solid, the track
expected to find a long stretch of
temporary bridges, rotting ties, and
corrugated streaks of rust. Two mogul
engines, oil burners, and looking as
though they had just come from the
builder, made forty to fifty miles
through the mountains between the
many local stops. Matchless weather
and full Pullman service denied the
popular conception of travel in Mexico
today.

Business Revival Sudden.

A realization of evidence of improve-
ment in Mexican conditions appears to
have come to American business men
suddenly and simultaneously and to
have caused a rush to the first
of the field for new opportunities. Dallas
delegation, which was to have been a
small addition of this expedition, became
a special trainload bent on spending
a month touring Mexico.

The San Antonio group also struck
out for themselves, sixty-seven of them
beating the Mississippi valley delegation
into Mexico by three days. This
delegation has been organized into
seven committees, which have been
studying and gathering accurate data
on banking, agriculture, timbering,
grazing, transportation, jobbing, manu-
facturing and border problems. Maxi-
co exports, and advertising. Each
committee will prepare a detailed re-
port of business conditions in Mexico
today and submit it to the American
foreign trade council which begins its
annual convention in Chicago April 23.

After referring to the world drama
left by the war, and to the ap-
peal of the pontiff for steadfast advo-
cacy of justice to all peoples to point
the way to permanent peace and good
will the bishops said:

"We desire that wise counsel should
displace all thoughts of violence in the
consideration of such differences as
exist, as may be settled between
our dear land of Mexico and the land
of our refuge, between lands linked
in a common destiny by nature and
by sentiment, free lands intended by
God to help each other in harmony,
mutual confidence, and disinterested
friendship."

ONCE EXILED BISHOPS APPEAL FOR AMITY TOWARD MEXICANS

WASHINGTON, D. C., April 10.—Edward E. Morgan, Houston, Tex., and Manuel Ruiz, a Spaniard, were murdered at Chevila, forty-seven miles from Salina Cruz, Mex., April 8, the state department was advised today. Morgan, who was manager of the Chevila estate, owned by George G. Wright, Kansas City, and Ruiz, as assistant manager, were captured, searched, robbed, and shot by insurgents or bandits. Both bodies were mutilated.

American Consul Burlingame sent a representative to attend Morgan's funeral at San Gerónimo. Morgan's wife lives at Houston, Tex., and his brother, John J. Morgan, at Columbus, O. The murder occurred on the Tehuantepec railroad.

After referring to the world drama

left by the war, and to the ap-

peal of the pontiff for steadfast advo-

cacy of justice to all peoples to point

the way to permanent peace and good

will the bishops said:

Beau Brummel's Togs
for 1919 All Fixed Up

Sartorial pulchritude was much in
evidence at the annual dinner of the
Men's Wear Association of Chicago in
the Hotel La Salle last night, the
display of "What to wear in 1919" rang-
ing from sox to tie and topcoat.

Washington, D. C., April 10.—An appear from three until
recently exiled Catholic bish-
ops of Mexico to the people
of the United States and Mexico to
be patient and forbearing the only way
to the other lest the amity which
men desire to preserve should be
disrupted by evil forces, was made
public, here today by the Mexican
embassy. It bore the signatures of
Francisco Plancarte, archbishop of Lin-
coln, Leopoldo Ruiz, archbishop of
Michoacan, and Francisco Orozco y
Jiminez, archbishop of Guadalajara.

After referring to the world drama

left by the war, and to the ap-

peal of the pontiff for steadfast advo-

cacy of justice to all peoples to point

the way to permanent peace and good

will the bishops said:

our dear land of Mexico and the land

of our refuge, between lands linked

in a common destiny by nature and

by sentiment, free lands intended by

God to help each other in harmony,

mutual confidence, and disinterested

friendship."

Think Missing Girl, 17,
Eloped with Sailor

The Warren avenue police were
asked by the parents of pretty Florence
Bernice Martin, 17 years old, 3940
Park avenue, yesterday to search for her.

They believed she had eloped with
a sailor, according to her mother.

There was a family discussion of Florence

Sunday. She had been staying out late at night. She left home that

evening. Monday she telephoned her
mother that she was with a sailor and
that they were either about to be
married, or married, the mother is not
sure which.

RUSH APPEAL TO WILSON ON PRICE FIXING QUARREL

Hines and Federal Board
Have Final Break;
Will Cable.

Washington, D. C., April 10.—President Wilson will be appealed to immediately by cable to take a hand in the controversy between the railroad administration and the department of commerce's industrial board, which was brought to a head yesterday by the decision of the general director of Director Hines to accept the new steel price schedule approved by the steel industry after conferences with the steel industry.

This announcement was made in a statement issued for the industrial board by its chairman, George N. Peck, after the two agencies had opened public his final decision. The opening break between the two government agencies came after Mr. Hines and Chairman Peck had conferred for about an hour.

Calls Prices Too High.

Mr. Hines based his refusal to accept the prices on the grounds that the prices were "too high"; that the industrial board had no power to impose its schedule on the railroad administration; and that the industry "would retard us if a governmental agency were bound by the board's recommendations."

In a statement denouncing the attitude of the railroad administration, by which it was asserted "the government is exhibited setting up an industrial board with power to destroy it with another," Chairman Peck warned against the railroad administration's exercise of its power of "monopolistic buying" of rails and declared that "the director general must assume full responsibility for the result."

Follows New York Conference.

The final conference between Mr. Peck and Mr. Hines followed a meeting in New York yesterday, attended by Mr. Frank R. Peck, Peck's son; and others advised to Mr. Hines E. H. Gary and other steel men, at which the producers refused to consider any further lowering of prices.

PRIVATE AAAE AND CORP. ZIEPPENFELT BID FOR ARMY FAME

PARIS, March 19.—(Correspondence of the Associated Press.)—The first name on the alphabetical list of the American expeditionary force is Private AAAe and the last is Corporal Zieppenfelt. Between the two names are more than 2,000,000 others.

George Washington, Abraham Lincoln, General Ulysses S. Grant, Robert E. Lee, Woodrow Wilson, several Caesars, and a few Bismarcks adorn the ranks with intermittent frequency.

Excluding the general in chief of the army and navy, there is but one Woodrow Wilson. He is a private and, according to Stars and Stripes, has just been placed in the working personnel of base hospital No. 27, which was organized in Pittsburgh.

LOWDEN REFUSES TO GIVE DARNELL TO MINNESOTA

Springfield, Ill., April 10.—[Special.] Gov. Frank O. Lowden this afternoon determined the Rev. James Morrison Darnell, "marrying parson," is not a fugitive from justice in the jurisdiction of Minnesota. The governor refused to order his return to that state to answer an indictment charging him with abandoning his 5 year old child of which Ruth Soper is the mother.

Darnell, a native of Minnesota, was free to continue his honeymoon with his fourth wife, a Miss Woods of Elgin.

Gov. Lowden, in announcing his decision, said that the wife and child abandonment act had, in some instances, caused the "hard-hearted kind of people to make themselves at home" and left it, ostensibly to visit relatives for a day or two, and, although refusing his plea to return, had caused his indictment for wife abandonment.

Maj. Gen. Leonard Wood will preside at the general job conference, which will be held for Col. Woods in service headquarters this afternoon.

Cards Are Shown.

Three hundred application cards,

filled out by returned fighters, were chosen at random at the bureau yesterday to illustrate the Chicago plan efficiency for the work of Col. Woods.

It was found that this week 196 of the 300 job applicants were sent to permanent positions, while thirty of the number referred to jobs failed to report for the work offered. Seventeen of the applicants found the jobs filled when they reported for work.

Women Ask U. S. Dissolve Chicago Butter Board

Pittsburgh, Pa., April 10.—[Special.] A resolution urging Attorney General A. Mitchell Palmer to dissolve the Chicago butter board was unanimously adopted today at a meeting of the Housekeepers' club of Pittsburgh, in the Hotel Chatham. The organization represents nearly 20,000 families in the Pittsburgh district. Several women denounced the Chicago butter board, asserting that it was responsible for the high cost of butter.

LIBERTY BONDS

SLAIN BY TRIO ON STREET NEAR DANCING PARTY

Some thirty coeds and students—all radicals—of the University of Chicago assembled in front of the Socialist hall, 6448 Cottage Grove avenue, yesterday afternoon. Seymour Stedman, prominent Socialist of Chicago, was scheduled to speak. He didn't.

The trouble is supposed to have arisen at a dance held at the home of Mrs. Florence Washington, 2213 Park avenue. The house was raided by the police and thirty-five men and women, all colored, were taken to the Warren avenue station.

Mr. Stedman Decided Not to Address the Students

Rose Beatty, 1942 Fulton street, colored, was shot and killed last night by three colored men on the sidewalk in front of the home of Mrs. Rose Lastner, 2219 Park avenue.

The trouble is supposed to have

arisen at a dance held at the home of

Mrs. Florence Washington, 2213 Park

avenue. The house was raided by the

police and thirty-five men and women,

all colored, were taken to the Warren

avenue station.

CITY SETS PACE IN GIVING JOBS TO FIGHTING MEN

War Department Begins Study of Methods Used Here.

Col. Arthur Woods, special assistant to the secretary of war and chief of the war department's commission on reemployment of fighting men, arrived yesterday to begin his detailed study of the methods used in serving her returned warriors.

"I am here to learn and not to suggest reconstruction methods," he told the Association of Commerce civic and industrial committee at luncheon, after making his first inspection at the "bureau of justice," 120 West Adams street.

Likes Chicago Plan.

"I have already convinced myself that the coordination by Gen. Wood and Chicago citizens of the employment and welfare services here is the best method that can be adopted in the country. It is developing greater success every day and is meeting every phase of the big problem that just now is the most important work before the nation."

Maj. Gen. Leonard Wood will preside at the general job conference, which will be held for Col. Woods in service headquarters this afternoon.

Cards Are Shown.

Three hundred application cards, filled out by returned fighters, were chosen at random at the bureau yesterday to illustrate the Chicago plan efficiency for the work offered.

STOP & SHOP EASTER CANDY SALE

Specials for Today, Tomorrow and All the Pre-Easter Week

to introduce our enlarged and more efficient candy department, where wonderful candies come right from our Model Candy Kitchen, fresh many times a day, and always pure, delicious and wholesome.

It's the kind that would be reasonably priced if sold for twice as much as we ask during this sale; it's the sort that makes you want to eat more and give the youngsters more. Get the candy habit—it's good for everyone. It won't be an extravagance if you buy this store's delicious confections. Come in today and select your Week-End Candy-Box.

POPULAR CONFECTIONS THAT USUALLY SELL AT A FANCY PRICE

CHOCOLATE NUT GOODIES—Tasty, toasty chopped up nuts held together with a munchy glaze dipped in richest chocolate; so expertly made that they give you that old-fashioned thrill of a real candy hunger. No confection so pure and delicious can compare with these low-priced goodies. 59c

MAPLE AND CHOCOLATE NUT FUDGE—Real fudgy fudge with nuts a-plenty. One of the good old-time candy bites that everybody likes, especially when it's the real home-made kind like this. 69c

FULL CREAM CARAMELS—The very arms of taste-perfection. Right in flavor, texture and consistency—neither too hard nor too soft; made of the best possible materials by expert candy makers. If you're fond of carmel, try these. If you're not sure ask the saleslady to give you one to sample. They're good and wonderfully reasonable; 73c

HAND ROLLED CHOCOLATES—Creamy, rich centers, jacketed with deep, crisp chocolate. True to its name, this is an ideal home-assortment over 25 different centers—some brittles, some nuts, vanilla, cocoas, etc. Something to please every member of the family. A wonderfully good combination at a wonderfully good price; 59c

MAIZE NUT MALLOWS—You smack your lips for more once you know this new candy piece. Think of it—a fresh, fluffy marshmallow, the best that's made, dipped in the creamiest caramel fondant, then literally smothered with choicest pecan meat; 94c

HIDDEN FRUIT—A glace bar of melting lusciousness with juicy fruit lumps through it; you'll find every bite of this delicious mélange a palate-delighting surprise. Each bar has a tasty bit of apricot, lime, pine-apple, fig, cherry and green grape in it. This combination of pure glace and richest fruit is a new candy wrinkle. The modest price of the large bars will surprise you; each. 20c

PUSSY WILLOW ROLLS—The fuzzy, fathery willow bud is candyishly represented by delicious rounds of caramel fondant thickly bordered with chopped pecan nut meats. These dainty rolls are our very own creation. They're wonderfully popular with hundreds of candy connoisseurs and will be with you once you try them; select your favorite flavor—there's cherry, vanilla, chocolate and maple; 79c

CHOCOLATE PUDDINGS—In a variety of shapes from the size of your eye to the dimension of your watch. Some have buttercream centers, others ordinary cream and caramel centers. Some have plain tops and others decorated with nuts. They're a brand new idea in Chocolate Puddings. Don't miss the pleasure of trying them; 1.25

CHOCOLATE AFTER DINNER MINTS—Heads an attractive leader, flavored with red distilled mint that will appeal to thousands—the smoothest, easiest and most delicious chocolate mint it has ever been pleasure to taste. It's a seasonal candy bite for after dinner or at any time you feel candy hungry; lb. 76c

ASSORTED HARD CANDIES—True flavors and thoroughly good materials make this candy enjoyable for everyone in the house, from the tiny tot up. Every home should have a jar of these pure candies on hand. The patent airtight cap on the jar keeps the sweets fresh and good while not in use. In 1½, 2½ and 3 lb. jars; jar.

CHOCOLATE MARASCHINO CHERRIES—Temping to the sight and wonderfully delicious to the taste, these perfect cherries saturated with rich, syrupy maraschino cordial, encased in an equally rich cream then dipped in dark, bitter chocolate—"rich and luscious" is right; lb. 95c

OPERA CREAM CARAMELS—In vanilla, chocolate, maple and strawberry flavors and made of that dainty cream that makes us think of the delightful candies of former years; you will look far to find carmels of this quality at so low a price; 59c

DIPPED CARAMELS—Soft, chewy, taste-good carmels made of 22% cream and delicious flavoring enriched by a chocolate dip; they're real "moreish" in their taste quality; lb. 79c

Bon Bons De Luxe

Are you fond of Bon Bons? Then you'll revel in a box of OUR OWN MAKE Bon Bons that are surely the best confection ever turned out. People tell us they like to look at our window display of Bon Bons—they make them so candy hungry. Here they are—not a great variety, to be sure, but each one a winner.

OLD-FASHIONED COCOANUT BON BONS, lb. 59c
DIPPED CARAMEL BON BONS, lb. 63c

Home Eating Candies

For palate-ticklers that the candy lover will at once appreciate, we recommend our HOME EATING ASSORTMENTS. They are all pure, wholesome confections made in the oldfashioned style of Mother Goose days, each variety a masterpiece of the Confectioner's art, whether how simple the formula. Molasses, sugar, butter, nuts; sweet, milky cocanut, chocolate—whatever the ingredients may be, each is the very finest quality obtainable. You may eat to your heart's content with perfect assurance of their pureness. And remember: candy is a food—not merely an extravagance. It is conceded by experts to produce more energy with less effort than any other food. Every sweet listed here will make your mouth water—just try them.

CREAM PATTIES, ass'td flavors, lb. 43c

LIPS OF INJURED WOMAN CONCEAL ATTACK MOTIVE

House Ransacked, Yet Nothing Is Missed by Husband.

What ghost came out of the past to strike down Mrs. Millie Krasko, 1835 West Huron street as she stood at her door in her home yesterday morning?

What was sought by the assailant who ripped up carpets and tore bedding and pillows to pieces?

The secret, if secret there is, is locked within the lips of Mrs. Krasko, who lies senseless, between life and death, in the County hospital.

Robbery Not Motive.

The police are satisfied the motive was not robbery. The neighbors say the Kraskos had nothing a robber would want.

Mrs. Krasko, the husband, who is employed by Hart, Shaffner & Marx, said little money was kept in the house. He said he had no enemies and could recall no old love affair of his wife.

Poisonous saloons are being combed over, a man who is described as being tall and well dressed, wearing a grey cap and suit. He appeared to be about 35 years old.

Mrs. Emma Chmelik, who lives next door, heard Mrs. Krasko scream shortly after 9 o'clock, but was too terrified to act. Through her window she saw the man saunter out of the house.

Head Crushed by Hammer.

John Phiesen, a fireman, was the first into the Krasko flat. Mrs. Krasko was lying in a pool of blood with her head crushed and her clothes torn.

On the ironing board was a shirt and an iron still warm.

Mrs. Krasko was employed in sweeping out rooms at the Talcott school after hours. Four of her children, Oleg, John, Anna, and Walter, are pupils there. The oldest boy, Paul, 17, has been working.

STATE BAR TEST PASSED BY MANY FROM CHICAGO

Springfield, Ill., April 10.—[Special.]—James H. Cartwright Jr., of Oregon, son of Justice James H. Cartwright, has passed the state bar examination. His name is included in the list of successful applicants filed by the state bar examiners in the office of Clerk Charles W. Vail.

Those from Chicago who passed the test were:

Guy C. Baltz, Abraham Miller, John H. Bishop, C. H. Miller, Ralph Blaha, C. F. Murray, Henry E. Cole, T. M. Norton, C. J. Collingsworth, William Oakes, Harry S. Cowen, W. L. Offord, M. M. Davidson, Bernard Perel, W. L. Dethbaugh, L. M. Reznick, W. L. Enzweiler, P. J. Stach, Joseph Fisher, Leon Silverstern, T. M. Fitzgerald, G. W. Smith, J. W. Gallagher, J. F. Wilson, F. J. Gibbons, R. L. Bailey, Vandor Gray, E. P. Feiker, R. L. Grinnell, W. A. Kelly, G. F. Henke, J. E. Hesling, G. R. Johnson, Robert Kennedy, E. C. Kroon, W. A. Lewis, W. G. Lodwick, Michael Mann,

YOUNG ROBBERS LINE UP ELEVEN MEN AND GET \$15

JUNIOR R. O. T. C. TO DRILL TODAY FOR WAR DEPT.

Private Skin-nay of Chicago's high school army is a trifle nervous.

He has nothing on approximately 10,000 comrades of the Junior R. O. C., however, for they are facing the same hour today when they must make good on their duty under the eyes of the war department.

At 10 o'clock this morning the high school battalions, under command of Capt. F. L. Beals, will execute a formal parade and review in Lincoln park before Col. F. J. Morrow, general staff colonel and leader of the war department committee on education and special training.

Some months ago Col. Morrow clipped departmental red tape and in four hours made it possible to equip high school boys of Chicago with regulation uniforms.

Michael Krasko, 806 North State street, of \$11 from the cash register and ran. Patrolman Croat ordered him to stop. Krasko saw two policemen in the opposite direction and obeyed.

Three bands entered the home of Robert Coburn, 5516 South Fifty-sixth avenue, during the breakfast hour yesterday, bound and gagged Coburn and his wife and Louis Johnson, a boarder, and escaped with \$100. Neighbors released the prisoners after the robbers had driven away in their automobile.

Mr. G. T. McDaniel, 4050 Calumet avenue, was awakened early to see a colored man going out of the window of her bedroom. She found that he had taken a diamond ring valued at \$300, a watch, and \$22.

Thirteen automobiles were stolen during the last twenty-four hours.

Frank E. Mallinson, a discharged Canadian soldier, was surrendered to the police and said his last will worth

checks in San Francisco and Salt Lake city amounting to \$410. He said he could not sleep and wanted to confess.

A pool room at 232 South State street was raided by police, and thirty-four men and boys were taken into custody.

The raid followed the arrest of Mrs. Josephine Brennan and Miss Frances Porter, who roomed at La Salle and Division streets. They said silk dresses in their possession were given to them by two men who could be found at the pool room.

The pool room is under the clothing shop of Joseph H. White, which was robbed of \$2,000 worth of clothing.

Thomas Reilly of 1126 North Crawford avenue was detained by the Austin police when Leroy Johnson, a discharged Canadian soldier, identified him as a man who robbed him of \$42 in a saloon at 3301 West Chicago avenue.

J. W. Enzweiler, a florist at 529 South Morgan street, reported to the police that two armed men entered his shop and robbed him of \$35.

Long Wearing Soles Mean Low Shoe Bills

"I have never been able to get half the service from other soles than I get from Neolin Soles," says H. H. Shellenberger, a traveling salesman of Easton, Pa.

Long wear from the soles means lowered shoe costs, for that is where shoes wear out quickest.

When next you need new shoes buy them with Neolin soles to pay no more than for shoes that give less wear—and you can get them in many styles for men, women and children.

Have these durable, comfortable and waterproof soles put on your old shoes, too. All good repair shops can do this. They are especially made by the Goodyear Tire & Rubber Co., Akron, Ohio, who also make Wingfoot Heels.

Guaranteed to outwear all others.

Neolin Soles

J. G. NOLAN WILL GIVES \$200,000 FUND TO N. W. U.

Northwestern university benefits by the will of J. G. Nolan of the Rushville (Ill.) Lumber company, who died recently in Los Angeles. The will has been filed for probate at Bloomington. The estate is approximately \$200,000. Mr. Nolan's widow is left an income of \$1,000 a year and a home as long as she lives; a brother, Dr. E. C. Nolan, \$1,000 a year for life; and a niece, Grace A. Servo, \$500.

The rest of the estate goes to Northwestern, as well as the principal left to the relatives, at their death.

"We heard that he had bequeathed some time ago," said Dean U. S. Grant last night. "The legacy is left. I understand, as a trust fund for the establishment of scholarships in the college of liberal arts."

The Chicago Tribune

THE WORLD'S GREATEST NEWSPAPER

FOUNDED JUNE 10, 1847

ENTERED AS SECOND CLASS MATTER JUNE 8, 1898, AT THE POSTOFFICE AT CHICAGO, ILL., UNDER ACT OF MARCH 3, 1879.

All unsolicited articles, manuscripts, letters and pictures sent to "The Tribune" are seen at the owner's risk, and the Tribune company expressly repudiates any liability or responsibility for their safe custody or return.

FRIDAY, APRIL 11, 1919.

"Our Country! In her intercourse with foreign nations may she always be in the right; but our country, right or wrong."

—Stephen Decatur.

THE TRIBUNE'S PLATFORM FOR CHICAGO

1—South shore—south park plan.
2—Moderate Chicago water department.
3—Extend the Chicago plan—completion of the Twelfth street project and Michigan avenue link-development of Ogden avenue extension, etc.
4—Complete railroad terminals under way and develop other new terminals.
5—Build boulevards along the drainage canals and connect them with the park system.
6—Lessen the Smoke Horror.

TRYING THE KAISER.

It is impossible from the American point of view to have much patience with squabbles in the peace conference over the trial and punishment of the kaiser. We can appreciate that in England and France he is bitterly hated and we in America have no reason to be concerned about his fate. He has helped to make more mischief than any government has ever given guilty of, perhaps, in history. But the Paris delegates have their hands full of problems that do concern us and the world more than any possible question of any man's punishment. Half of Europe is in flames of revolution and the fire spreads daily. Hanging the kaiser will not stop bolshevism or advance us one step towards the peace in which alone lies the safety of civilization.

But if the case of the kaiser must be thrust into this crisis we should pray the Paris conference lays hold of such common sense as it can muster and deals with the problem practically with some regard for the lessons of experience. Only expediency can or should govern the decision. We cannot pretend a trial of Wilhelm would be the formal conviction of a culprit already convicted. The court would go through motions already determined. If it was intended that he should be executed, the court would order him executed; if not, he would be given some other predetermined penalty.

Waiting the embarrassment of setting a precedent by which any ruler or supreme agent of a national policy might, in case of defeat, be punished for acts done officially in the supposed interest of the state, there is the question of how to dispose of the kaiser so as to be rid of him and his influence. Would shooting him at sunrise or hanging him accomplish the result wanted? We doubt it. The execution of kings in the past has achieved as little good as their assassination. The British, some of whom are now clamoring for Wilhelm's head, cut off that of Charles Stuart something over two centuries ago. The result, after a little time, was the restoration of his son and, after centuries, the persistence of a sentimental devotion which still has its grotesque though organized survival in Jacobean societies. When the English drove the other son of Charles I out of the land, the Stuart cause became a futility.

As for the French, they once behaved a king and queen and it was not many years before they had the family once again upon the throne. Napoleon escaped with his life and passed his last days in a martyrdom of exile which helped materially to hand down to his nephew an inheritance of glory colored by sentimental pathos.

The kaiser today is nearer down and done for than he will be if he is put through a form of trial at which his histrioic instinct might assert itself and efface the disgrace of his flight from a sore tried army. The kaiser and his kin are not only done for with their enemies, they are done for in Germany, for they deserted the army and their colleagues and comrades in a great moment of peril, ran away ingloriously from their own people, and now are spending their time whimpering and apologizing, denying, and shirking blame upon their agents. What could be more foolish than to set them up in the glory of a world court or in the grim romance of a scaffold? They are contemptible now and therefore powerless. The Paris conference is foolish if it lends them any dignity.

PUNISH THIS GUILTY ONE.

United States soldiers at \$30 a month were employed to build roads in southern states. They worked alongside Negro civilians who were paid \$5 and \$6 a day. They entered the army to be soldiers. They were willing to sacrifice everything for America. They endured the strictest training and discipline. They joined the army as fighting men. They were forced, under arms discipline, to become road laborers.

Who did this? And why does not the guilty one face charges in a criminal court?

Can the company commander of a unit from the University of Wisconsin be held responsible? No, he was under orders from the colonel. Can the colonel be held? Not so; his orders came from the division commander. Then the division commander? No, for he got orders from Washington.

Who in Washington sanctioned that gross misconduct? The trial seems to lead straight to the door of Secretary Baker. Surely it was his burliness to know if men of the United States army were being used for other than military purposes.

There is no doubt of the wrong done because congress has ordered the soldier-laborers paid on the basis of the wages given to Negro laborers who worked with them. The Negroes were paid \$5 and \$6 a day. The soldiers who enlisted to fight in France got \$30 a month. The southern states will have to make up the difference. But even this money does not come out of the state's treasures, but out of a federal road gift. But the point is, the charges of forcing soldiers to do road work are true. If the charges are true it follows inevitably that some one is guilty of the charge.

It is not sufficient to pay the soldiers the difference between \$30 a month and \$5 or \$6 a day, and then let the affair drop. Paying the difference is only a confession of some one's guilt and the technical compounding of a minded. Does Baker escape the indictment of forcing soldiers to grub as common laborers merely because congress does an act of justice by paying them what any laborer would demand? Hasn't the United States army had about enough odium heaped upon it by Baker?

The soldiers did forced work as laborers. It has

been admitted by congress; they are to be paid; here is proof of iniquity. The official responsible for such gross maladministration should be fetched into court. We think there should be punishment meted out to the guilty one.

A NEW THIRTY YEARS' WAR.
Europe will enter a more complicated condition as the result of the peace now being determined than it was in before the war. In complications there is insecurity.

The peace terms upon which the big four are said to be agreeing as effective compromises are calculated to make unrest the condition of Europe for thirty years.

Germany is to pay \$5,000,000,000 within the next two years, and thereafter alien tax collectors are to estimate her ability to pay, and are to assess accordingly.

France is to take the Saar valley and have it worked for her benefit until it is decided that she has received recompense for damage done her coal and mineral fields by the Germans.

What is this but a continuing strike? What can it be but war against one people by another?

The military victory over the Germans gave the allies and the United States the power to dictate terms. They are dictating them.

These terms need many years for their fulfillment. They must be onerous. They will continue to bear down upon Germans who, now being children, will grow to be men. They have not had anything to do with German policies which led to war. They will find that they have to obey the commands of a commission which assesses upon their earnings.

It is right—that they should. The sins of the fathers descend upon the next generation. But here right must be backed by might. We may impose conditions now. How about ten years from now? Who will bring the world east of the Rhine to terms the moment that the world east of the Rhine balks at terms.

Who will be the bill collector? Who will shut off the gas if the gas bill is not paid? Who will shut off the water if the water rate is not paid? Who will move out the furniture if the personal property taxes are not paid? Who will sell the place for taxes if the realty taxes are not paid?

But if the case of the kaiser must be thrust into this crisis we should pray the Paris conference lays hold of such common sense as it can muster and deals with the problem practically with some regard for the lessons of experience. Only expediency can or should govern the decision. We cannot pretend a trial of Wilhelm would be the formal conviction of a culprit already convicted. The court would go through motions already determined. If it was intended that he should be executed, the court would order him executed; if not, he would be given some other predetermined penalty.

Waiting the embarrassment of setting a precedent by which any ruler or supreme agent of a national policy might, in case of defeat, be punished for acts done officially in the supposed interest of the state, there is the question of how to dispose of the kaiser so as to be rid of him and his influence. Would shooting him at sunrise or hanging him accomplish the result wanted? We doubt it. The execution of kings in the past has achieved as little good as their assassination. The British, some of whom are now clamoring for Wilhelm's head, cut off that of Charles Stuart something over two centuries ago. The result, after a little time, was the restoration of his son and, after centuries, the persistence of a sentimental devotion which still has its grotesque though organized survival in Jacobean societies. When the English drove the other son of Charles I out of the land, the Stuart cause became a futility.

As for the French, they once behaved a king and queen and it was not many years before they had the family once again upon the throne. Napoleon escaped with his life and passed his last days in a martyrdom of exile which helped materially to hand down to his nephew an inheritance of glory colored by sentimental pathos.

The kaiser today is nearer down and done for than he will be if he is put through a form of trial at which his histrioic instinct might assert itself and efface the disgrace of his flight from a sore tried army. Hasn't the United States army had about enough odium heaped upon it by Baker?

The soldiers did forced work as laborers. It has

A LINE O' TYPE OR TWO.

"Fay ce que voudras."

MY TULIPS.

Beneath the leaves my tulips keep
A secret with the sun;

The springtime summons, sweet and clear,
Above their heads soft snows lie deep.

And wintry breezes, roaming by—
Intone a sturdy lullaby—

“Sleep, little bulbs, sleep.”

But times, through clouds the sun will break
And gently warm the earth beneath;

The dewy drops leave him to rest
Each rose himself for spring's sweet sake.

The wandering breeze softly croon
A happy, lilting gypsy-tune—

“Wake, little plants, wake!”

Now gone the cold and gone the snow,
The whole glad world belongs to spring;

The rivers dance, the robins sing,
My tulips make a stately show.

The romping breeze glad and gay—
Among the regal blossoms play—

“Grow, little plants, grow!”

Forgotten winter's murky gloom,
In festive robes the earth is radiant;

Each tulip flaunts a flaming crest
And gives his largess of perfume.

The romping breeze glad and gay—
Fling back to them a joyful cry—

“Grow, little plants, grow!”

Now gone the cold and gone the snow,
The whole glad world belongs to spring;

The rivers dance, the robins sing,
My tulips make a stately show.

The romping breeze glad and gay—
Among the regal blossoms play—

“Grow, little plants, grow!”

Now gone the cold and gone the snow,
The whole glad world belongs to spring;

BOLSHEVISM IS CZARISM AMUCK, SPARGO WRITES

Authority on Socialism
Analyzes the New
Power.

\$10,000 LOSER
Lafayette, Ind., Woman's Jewels
Dropped on Motor Ride.

RUSSIA'S FUTURE IN HANDS OF U.S. ROBINS ASSERTS

Speaker Praises Bolshevik Chiefs Before the
Casino Club.

"The principles and practices of the Bolsheviks are simply an inverted form of czarism," writes John Spargo in his new book, "Bolshevism, the Enemy of Peasant and Industrial Democracy," just now published by Harper & Bros. Mr. Spargo is a noted Socialist writer, author of "Social Democracy Explained," "Applied Socialism," and numerous articles on the subject.

"Mr. Spargo's new book is an examination and exposition of the historical development of socialism, communism and bolshevism, and the principles and practice of bolshevism, which, he says, has nothing in common with democracy or Socialism, and is but a dictatorship of the proletariat as tyrannous as the most unbearable form of autocracy and militarism known. He inveighs against the so-called intellectuals in his country who defend and support the Bolshevik movement."

Psychological Question.

"Some day, perhaps," he writes, "a competent psychologist will attempt the task of explaining the psychology of our fellow citizens who are so ready to believe the Bolsheviks for doing the very things they themselves hate and condemn. In any list of men and women who should be put in jail, I would say that it will be found that they are practically all pacifists and anti-conscriptionists, while a great many are nonresistants and conscientious objectors to military service."

Practically all of them are vigorous advocates of freedom of press and the right of public assembly and free speech. They are almost universally strong advocates of radical political democracy. How can high minded and intelligent men and women—as these are—hold such beliefs as these, give countenance to the Bolsheviks, who bitterly and resolutely oppose all of them?

Suffrage a Problem.

How can they stand at one and the same time communists and advocates for the imperfections, as in the matter of suffrage, while upholding and defending the very men who in Russia deliberately set out to destroy universal equal suffrage already achieved?

"How can they demand freedom of speech and assembly even in wartime and denounce such restrictions as we have had to endure here in America, and at the same time uphold the men responsible for suppressing the press and public assemblies in Russia in a manner worse than was attempted by the czar?" Is there no logical sense in the average radical's logic?

"Or can it be that, after all, the people who make up the Bolshevik following and who are so much given to engaging in protest demonstrations of various kinds, are simply restless, unanchored spirits for whom the stimulation and excitation of revolt is necessary?"

Certain persons have established a working relation between socialism, a program, and bolshevism, a method. The connection is not inherently logical, but on the contrary wholly adventurous. As a matter of fact bolshevism can only be linked to the program of socialism by violently and disastrously.

CHICAGO.—[Editor of The Tribune] majority against Wilson in the election was not due to his election division among four candidates; that is what he received but out of a total of 688,359, the being 450,471.

They may be where the ale-ups like the Luddin-Thompson well known. They are approve of, and in a large by the kind of administered combination during the last four

days before the legislature a measure (Senate Bill 142) that cities of less than 5,000 may abolish the office place the administration of affairs in the hands of a person chosen by the council, making this measure little in the state would become a part of the Luddin-Thompson. In most cases the majority selections and they responsible to their constituents.

matter with organizing a three Chicago? E. T. W.

CT FOR THE LEAGUE.—[Editor of The Tribune] a few years two alliances will be facing Europe. One of these will call itself the league in opposing enemy alliance German race as its nucleus and others will be and be drawn in by secret bound by secret treaties. Alliances will be piling armaments in mutual com-

petitors, as it appears to me, the league of nations must form an armed alliance in war. The tremendous before the country is. United States joins this alliance.

VERITAS.

AND MAJORITY RULE.—[Editor of The Tribune] a matter of surprise and of your readers to find is such an editorial as that: "Vote on Liquor." It all for democratic government occupying the majority could suggest that a large portion of and foreign elements, are not constitutional amendment, properly prescribed form they should endeavor to nullify the constitution. This is democracy. Such a line of action, what becomes of me.

M. D. F.

Speaker Praises Bolshevik Chiefs Before the
Casino Club.

"America holds the answer to Russia's challenge," declared Raymond Robins to members of the Casino club in a talk on Russia last night. Mr. Robins expressed the highest regard of Nikolai Lenin and Leon Trotsky and their administration.

"Mr. Spargo's new book is an examination and exposition of the historical development of socialism, communism and bolshevism, which, he says, has nothing in common with democracy or Socialism, and is but a dictatorship of the proletariat as tyrannous as the most unbearable form of autocracy and militarism known. He inveighs against the so-called intellectuals in his country who defend and support the Bolshevik movement."

Psychological Question.

"Some day, perhaps," he writes, "a competent psychologist will attempt the task of explaining the psychology of our fellow citizens who are so ready to believe the Bolsheviks for doing the very things they themselves hate and condemn. In any list of men and women who should be put in jail, I would say that it will be found that they are practically all pacifists and anti-conscriptionists, while a great many are nonresistants and conscientious objectors to military service."

Practically all of them are vigorous advocates of freedom of press and the right of public assembly and free speech. They are almost universally strong advocates of radical political democracy. How can high minded and intelligent men and women—as these are—hold such beliefs as these, give countenance to the Bolsheviks, who bitterly and resolutely oppose all of them?

Mr. Spargo related how, when Lenin and Trotsky came into power and he

became convinced that they would be at the helm for some time, he went to them and offered assistance. Lenin and Trotsky, with the soviet government, were a great help in his task of stopping the exportation of raw materials from Russia into the central powers and delaying a separate peace with Germany.

Concerning U. S. Davis.

The attorney general, Louis D. Brandeis, offered to withhold ratification of a separate peace if the United States and England would recognize the soviet government and how the delay of the United States caused Lenin to approve the action in the soviet council.

He paid many compliments to Lenin for his personal official characteristics and declared that Lenin is the real head of the soviet, with Trotsky his first lieutenant.

He made no reference to the reported refusal of American troops now in Russia to continue their fighting.

The meeting was held under the auspices of the Chinese Economic League association. Two hundred persons associated with Mr. Robins and a hundred or more others came in later to hear the address.

**\$75,000 DAMAGE
ACTIONS ECHO
I. W. A. C. ROW**

The factional fight in the Illinois Woman's Athletic club resulted yesterday in the filing of two suits against members of the controlling faction by Attorney Martin C. Koebel, who represented the seceders last Monday at a meeting in the Stevens building.

Mrs. Bertha M. Severin, president of the club, filed suit for \$100 and Mrs. Della C. Spencer, lieutenant of Mrs. Severin, is sued for \$2,000.

"The actions are for malicious prosecution and slander," said Attorney Max C. Liss, who filed the praecipes. "We are suing Mrs. Severin for conspiracy and slander. The action against Mrs. Spencer is for false arrest and malicious prosecution."

He told how, in the days following the overthrow of King George V. William B. Thompson and provided \$1,000,000 of his personal wealth to support propaganda and investigation work in an endeavor to make the Russian see that the allies were on their side, a thing the Russians could not understand because the czar had been with the allies and sold them out to the Americans.

Mr. Robins told how he left Russia, traveling over 6,000 miles through territory not held by the Red guard, with only Lenin's personal letter to safeguard him. At every stop he was shown the highest courtesy and not molested, he said.

\$1,000 Propaganda.

He told how, in the days following the overthrow of King George V. William B. Thompson and provided \$1,000,000 of his personal wealth to support propaganda and investigation work in an endeavor to make the Russian see that the allies were on their side, a thing the Russians could not understand because the czar had been with the allies and sold them out to the Americans.

Mr. Robins told how he left Russia, traveling over 6,000 miles through territory not held by the Red guard, with only Lenin's personal letter to safeguard him. At every stop he was shown the highest courtesy and not molested, he said.

\$1,000 Propaganda.

Mrs. L. C. Fowler, wife of Cecil G. Fowler, banker and hotel owner of Lafayette, Indiana, turned to the police yesterday that she had lost a black suitcase containing \$10,000 worth of jewelry yesterday on Western avenue between Fifty-ninth street and Blue Island, Ill. The suitcase was either left on the curb at Fifty-ninth street, where the Fowler car stopped for a few minutes, or was subsequently stolen from the auto.

Mr. Robins related how, when Lenin and Trotsky came into power and he

SEEK J. E. DAVIES' DEPOSITION IN CONSUMERS' CASE

Attorney Joseph Weissenbach of counsel for the receiver of the Consumers' Packing company left last night for New York City to take the deposition of Joseph E. Davies, former head of the federal trade commission, who has been invited several times by Judge Landis to testify and return the \$7,500 fee he received from the company.

Davies is sailing for Paris this week.

The fee of \$7,500 was paid Davies by the company for appearing before the committee issues committee at Washington, which had refused to grant the Consumers' company a permit.

FOR LUMBAGO

*To Musterole. See How
Quickly It Relieves*

You just rub Musterole in brightly, and usually in a few moments a delicious, soothing comfort comes to take its place.

Musterole is a clean, white ointment, made with oil of mustard. Use it instead of mustard plaster. Will not irritate.

Many doctors and nurses use Musterole and recommend it to their patients.

They will gladly tell you what relief it gives from sore throat, bronchitis, cough, stiff neck, asthma, neuralgia, constipation, piles, rheumatism, lumbago, pains and aches of the back or shoulder, sprains, sore muscles, bruises, chill, cold, frosty feelings of the chest. Always dependable.

30c and 60c jars; hospital size, \$2.50.

MUSTEROLE
WILL NOT IRITATE

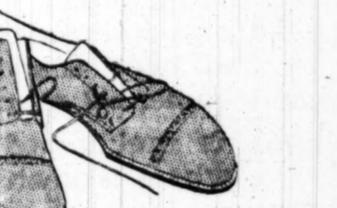

Soft Collars for Summer Comfort

SOFT COLLARS are worn more and more the year round. They are particularly adapted for wear with silk shirts, preventing the cutting of the shirt at the neck.

A neat style is the new St. Cloud 71, made of lustrous satin-striped fiber; dozen, \$6.

Other styles of Soft Collars, dozen, \$3, \$4, \$4.50, \$4.80 and \$7.20.

First Floor.

Spring Oxfords

Built for Men Who Seek the Maximum of Satisfaction

If a man wrote his own specifications for Oxfords or Shoes we do not believe he could improve our Footwear.

Consider these points: leather from the heart of selected hides; tough, elastic oak-tanned soles; counters of all leather and heels of sole leather.

The combination of style, comfort and wear makes this Footwear truly economical. There are lasts and models here to fit all feet.

In a variety of leathers—cordovan, tan, Russia calfskin, gunmetal, black and tan kidskin.

Second Floor.

'WE'VE ANNEXED NINTH WARD TO UNITED STATES'

That's boast of New Alderman from Pullman Territory.

(Second of a series of stories introducing the fifteen new men who will be seen in the new city council.)

BY CHARLES N. WHEELER.

"We brought the American flag back into the ward."

That, says Guy Maderon, the new alderman from the Ninth ward, is the outstanding feature of his election. He defeated Ald. Charles V. Johnson, the Socialist. Maderon is a Republican.

The Maderons are the first Dutch families to settle on the far south side in what was Rosedale, and later became with the surrounding cabbage patches, a section of the Ninth ward, peopled now largely by laboring people and small home owners. It is an important manufacturing district today.

Born in Chicago.

In the same block—11030 South Michigan avenue—where the elder Maderon opened his paint store in 1871, the new alderman elect is continuing the business, which is prosperous. The Hollanders always were strong for paint and new wall paper. The alderman is a man born in Chicago forty-eight years ago, is married, and lives at 10944 South Wabash avenue.

"When I was a boy," he said, "Rosedale was almost solidly settled by Hollanders. Now it is about 50-50 between the Hollanders and Swedes. The Pullman car plant and the other large manufacturing institutions have brought thousands of laboring people into the ward. We are not rich; we are workers and small homeowners."

Americans, although my parents were born in the old country.

Socialists Forced Race.

"I always took an interest in politics, but this is the first office I ever held. I wouldn't hold this one, for I never cared to run for office, if it hadn't been for the Socialists carrying their red talk too far. I was the Brundage candidate for legislature last fall and was defeated."

But Ald. Johnson, who isn't a bad sort of fellow personally, got to "seeing red" so badly that the merchants and home owners of the Ninth ward decided it was time to raise the American flag again. We had a tough time with old Liberty loans. The Socialists would always demand more. We had to make the plus boys double up their subscriptions in order to go over the top with the ward's loan quota.

"So we decided that it was time for another flag raising. The business men asked me to make the race. I consented to run, provided they would make Americanism the issue.

Police Stop Johnson.

"Johnson got so bad at the windup

YALE PROFESSOR EXCUSED TO DIRECT BIG CHARITY FUND

NEW HAVEN, Conn., April 10.—From the office of the secretary of Yale university today was issued the first notice of the commonwealth fund of New York City, a charitable foundation described as of large significance. Prof. Frank L. Yale, for the next academic year to undertake constructive work in connection with the fund as general director.

The fund was established in November, 1918, with Otto T. Barnard, Prof. Farrand, Samuel H. Fisher, Edward S. Harkness, and George Welwood Murray as incorporators. Its objects are the application of the income, and the principal of such property as the corporation shall so determine, of the corporation shall from time to time possess, including the giving of same to any charitable or benevolent corporation.

The operations of the corporation are not limited to the United States.

A large gift from Mrs. Stephen V. Harkness places the corporation in funds for its work.

of the campaign that the police had to pull him off the soap box. Well, we went to it and didn't trim at any spot in the road. We wanted to find out whether the Ninth ward was an American community. We won.

"And now what am I going to do up there in the council chamber? Well, I'm not going to be an uppity member. I'm going to try to regulate the universe, or try to run the council the first day. I am going to do some listening for a while. I'll support the big things the city as a whole needs. But about 90 per cent of my time and efforts will be devoted to doing things for our ward. We are so far away from you loop fellows—that the administration, coming to us, doesn't seem to all the fault of the administration, either."

"I've got a lot to learn about the aldermanic job, but I don't think I will do anything that will not measure up

administration to be a success, as every good citizen does. I want to add my humble bit to the good of the city. But I want them to take a look over this ward. I want our streets fixed up and a thousand other things done, which is one of the greatest in the city.

I want decent transportation. The traction service is outrageous. The industrial situation is not encouraging. Since the government has been running the railroads the Pullman shops have been working about half the time or less. The men are getting three or four days' work a week. The Socialists want this situation to push their red stuff.

Business Used Against Him.

"Johnson and his followers used the argument against me that I had a business while he had none, and therefore he ought to be retained in his council job as it was his living. Johnson was a worker in the Pullman shops.

"The city can help up in getting improvements started that will furnish employment to many of our workers. We are going to keep the ward in the Democratic column, and I want Bill Thompson to help us do it."

"I owe my election," he said, "to the people of the Fourth ward, and what

they want will be my first consideration. I will be loyal to Chicago and I won't sidestep anything on that issue."

"At the same time the biggest thing I have in mind now is the Ninth ward."

New Man from Fourth.

Timothy A. Hogan is the new and young man the fourth ward sends to the loyalty standard. He is 30 years old, married, and lives at 6325 Throop street. He has been in the employ of the Telephone company, but since the official returns were announced he has taken a long leave of absence.

He also says he's going to join the "listeners' club" in the new council for while.

"But he probably will not be adverse to seeing his constituents now and then from James A. Dahl, chairman of the Democratic county managing committee, who is the titus boss of the ward."

"I signed the M. V. L. pledge. It's a pretty stiff pledge, tying a fellow down before he's elected. But I signed it, and it goes."

STRUCK BY CAB, DIES.

John J. Smith, 6325 South Sangamon street, died yesterday afternoon at his home in the Lincoln Park hospital, following injuries received in a collision with an east-bound street car at West Sixty-third street and St. Lawrence avenue.

they want will be my first consideration. I am not going to map out a big program for Chicago just now. I am not going to make a lot of promises that I might have to go back on. I don't know what this job is yet.

Wants Money Circulated.

"But one thing I do want and that is the releasing of that \$14,000,000 of bond money they've got up at the city hall. The spending of that money will not cost my people anything, and it is time it was put into circulation. There are a lot of us here who work down our wages, and it is time the city thinks on the improvements with the millions of dollars already raised for that purpose."

"I am for Chicago and anything that will help Chicago, but I am for the Fourth ward, too. What our people down here think I should do will determine my action."

"I signed the M. V. L. pledge. It's a pretty stiff pledge, tying a fellow down before he's elected. But I signed it, and it goes."

STRIKE BY CAB, DIES.

John J. Smith, 6325 South Sangamon street, died yesterday afternoon at his home in the Lincoln Park hospital, following injuries received in a collision with an east-bound street car at West Sixty-third street and St. Lawrence avenue.

TIMOTHY A. HOGAN

The People Who Work With Swift & Company

Big Business is usually pictured in the public mind as a huge, soulless machine. As a matter of fact, it is just a collection of human beings like you.

Without boasting and simply to give the public an idea of the human side of Swift & Company, we publish the following facts:

The lowest rate of wages paid to men has been increased voluntarily and by arbitration 167 per cent in the past three years; the wages of all packing-house labor have been increased an average of 125 per cent.

There is an Employees' Benefit Association (voluntary) providing disability and death benefits for a small weekly payment. Sick allowances are granted in times of illness, and pensions for disability and old age are provided without expense to the employee.

Under a two year time payment plan 4,000 employees have become shareholders in Swift & Company.

Company physicians attend employees needing their help at the plant and at home, without charge.

More than 1,500 of the 7,500 men who left to join the army and navy have returned to their jobs, and jobs are waiting for the others as soon as they return.

At the general office in Chicago, every boy is given an hour's schooling daily on company time, such work being accredited by the high school authorities in securing a two year commercial course diploma.

A summer home is maintained at Fish Lake, Indiana, near Chicago, where women plant employees may spend their vacations, without cost.

Swift & Company is co-operating with other employers to improve living conditions around the stock yards.

More and more thought and attention are being given to the opportunity and responsibilities presented in a big industry to improve working conditions and to raise living standards.

These are beginnings of a broad, constructive program, details of which are now being worked out by the Employees' Relations Committee of Swift & Company.

Swift & Company, U. S. A.

MONEY AGAINST MOTHER DELAYS DIVORCE ACTION

Judge Hesitates When Woman Offers to Give Up Babies.

"It takes a mighty large amount of money to make up for the difference between a good mother and a wealthy grandmother," said Judge George F. Barrett yesterday afternoon at the hearing in the divorce suit of Mrs. Laura A. Winship of Winnetka against David A. Winship.

The jurist was discussing the case of the three Winship children, Martha Ann, 10, David Allen Jr., 5, and Alice E., 3 years old. On the witness stand Mrs. Winship asserted that she had agreed to give up her children to Mr. and Mrs. Joseph C. Vermillion, 6110 Vernon avenue, to have the care of the children because "she was not financially able to provide for them."

"Mr. and Mrs. Winship are wealthy," said the plaintiff. "They are the parents of my husband and desire to have the children, so I agreed."

Judge Interrupts.

The hearing had run quite smoothly until this point was reached, but here Judge Barrett took personal charge.

"These three children should be with their mother," he said. "No education in the world away from their mother can be as good for them. I wouldn't let my 4-year-old son leave his mother for all the gold in the world."

"But their father does not—will not—want them," said Mrs. Winship. "His parents have provided for him and they will take care of the babies. I cannot, for I have no money now."

"I'll look into the matter," said Judge Barrett. "We must save these babies from being criminals twenty years from now."

Says Husband Spanked Her.

Mrs. Winship charged her husband with extreme and repeating cruelty and assault.

"Once we were arguing over some housework, and he struck me across his knee and struck me," she said.

"A regular old fashioned spanking—" mused the jurist.

"He never paid a bill. The milkman, the grocer, the butcher, the tailor, the clothing stores—everybody bothered me," Mrs. Winship continued. "I spent \$100 during the last two years paying his debts. He used to be in the business, but even that is gone now."

Mrs. Winship's sister, Mrs. Alice Rogers, asserted that Winship had no respect for women.

"He told naughty stories," she said.

Judge Barrett took the matter under advisement.

GASOLINE BURNS KILLS WOMAN.

Mrs. Alvin Mróczkowski, 27 years old, 285 South Keeley avenue, died in St. Mary's hospital yesterday after suffering from burns when she attempted to clean a gasoline stove.

Healthy Feet and Well Fitting Shoes

You can have healthy feet if you will let Martin Larson build your shoes. His shoes are well fitting because they are made right over your own feet.

The Larson Sta-Right Shoes for men and women are known all over the United States, but the only place they can be had is in Chicago, because they are designed and made by Martin Larson, Chicago's only shoe specialist for the past 32 years.

The method of building these shoes was originated by Martin Larson years ago. The system employed is reproducing your feet into lasts by a plaster parison cast system.

If you would enjoy healthy feet, consult Martin Larson at once.

Air Mail Service Expected to Start on April 15

City Employees Threaten Strike as Pay Day Lags

The aeroplane stamps have arrived and two Curtis-R mail planes are expected to breeze into town today for trial flights preparatory to the inauguration of air postal service to New York, via Cleveland.

Oliver J. Sproul, chief of the air mail service in Chicago, stated last night that daily service would start about April 15 and not later than April 20. The flying time to Cleveland will be three and a half hours and to New York seven and a half.

Mrs. Ruby Chvola, divorced wife, and her successor, Pearl Chvola, wife No. 2, had their revenge yesterday on Louis Chvola before Judge Fry in the Court of Domestic Relations.

The divorced wife appeared in court to prosecute her husband on a charge of failing to support her two children, George and James.

Backing her was wife No. 2, Pearl Chvola. Her stanch champion of the first Mrs. Chvola surprised Judge Fry.

"This is certainly an unusual case," he said. "It is my experience that women who have been married to the same man are usually enemies, but here we have the unusual spectacle of the present wife, who has supplanted another woman, assisting the first wife to secure justice. This is really remarkable."

Hunted Husband Four Years.

Mrs. Ruby Chvola testified that she sought for her former husband for four years but was unable to locate him after a few weeks, and it developed from her testimony that it was from Chvola's present wife that she learned of his whereabouts.

After the divorced wife concluded her testimony Judge Fry asked:

"Is the defendant Mrs. Chvola in court?" A handsomely dressed young woman stepped forward.

"Here I am," she said.

Mrs. Chvola immediately rushed to the aid of the first wife.

"He treated me just like he treated her, was mean and neglectful."

With tears in his eyes Chvola, flanked on one side by wife No. 1, on the other by wife No. 2, started to plead first with the one, then with the other, for "just one more chance."

Wives in Conference.

Judge Fry declared a five minute recess while the former wife and present wife of Chvola went into a conference in the chambers.

At the end of the five minutes they emerged and Judge Fry asked:

"Has there come to any kind of an agreement?"

"Give him another chance," said Ruby, and Pearl assented.

Chvola was released on a bond of \$400. He is to pay his first wife \$7 a week for the support of her children.

BAND ASSOCIATION MEETING.

Plans for a parade next Monday by the Chicago Band association were discussed at a luncheon yesterday in the Hotel La Salle. The association will be in the interest of giving more free concerts this summer, reports 500 new members obtained this week.

University of Illinois Examination for the Certificate of Certified Public Accountant

To be held May 15-16, 1919,
County Court House, Chicago

The examination covers: Theory of Accounts, Auditing, Practical Accounting, and Commercial Law (as affecting accountancy).

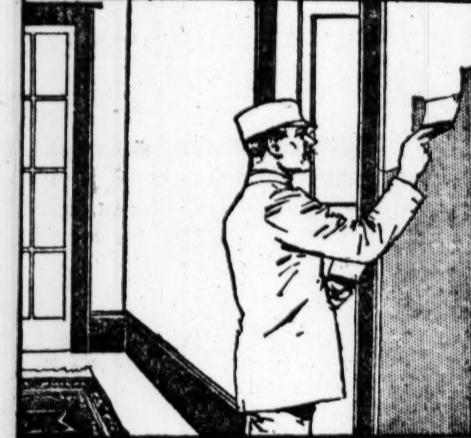

There is a great demand for skilled accountants on account of income tax and reconstruction work.

For questions, copies of the regulations and application blanks, address:

C. M. McConn, Secretary

COMMITTEE ON ACCOUNTANCY UNIVERSITY OF ILLINOIS Urbana, Illinois

It is not an extravagance to decorate your home

IT'S a saving. Paint and Varnish protect and preserve your walls, floors and woodwork, make housekeeping easier and living more healthful.

There is nothing so economical as walls painted with

Sherwin-Williams Flat-Tone

It costs less than any other wall covering you would care to use. It gives a double, easily cleaned surface in either plain or two-tone (system) effect, rich and soft in colorings, restful to the eyes and healthful to live with.

Flat-Tone is an oil paint for walls and ceilings exclusively, just as each Sherwin-Williams Paint, Varnish, Stain or Enamel is for a special purpose. Here are a few of them. The Sherwin-Williams store near you carries the full line.

S-W Floor lac stains and varnishes floors, woodwork and furniture with one operation. Reproduce the natural color of rare woods.

S-W Mar-Not is a varnish for floors that can be walked on, cleaned on and scrubbed without injury. The most durable floor varnish made.

SHERWIN-WILLIAMS PRODUCTS
PAINTS AND VARNISHES, DYESTUFFS, PIGMENTS, CHEMICALS INSECTICIDES, COLORS, DISINFECTANTS AND WOOD PRESERVATIVES

There is an agent in your neighborhood selling S-W Products. Look for this "Cover the Earth" mark in his window. If you cannot locate him, telephone Harrison 2448

Such Clothes as These —

Are the Expression of the Buoyant Spirit of To-day

Under the tin hat many decisions have been made during these past months. Life's values have been measured with no careless eye. Many a truism, passed over flippantly before, has found acceptance through some stern proof.

Back to civilian clothes does not mean back to any kind of clothes at all. For men incline to express their own personal characteristics in the clothes they wear, and so to-day there must be clothes for the man of this new buoyant spirit who knows how much his clothes express the measure of himself.

The new spring and summer styles in clothes of fine fabrics, in hats, shoes, shirts and haberdashery, offered in this Spring Occasion for Men and Young Men, demonstrate how well this Men's Store has grasped the situation and provided for the man particular about the clothes he wears, in each instance according to this man's personal preferences.

ILLINOIS LABOR FORMS ITS OWN POLITICAL PARTY

Delegates at Springfield
Score Slayers of In-
junction Bill.

Springfield, Ill., April 10.—A new political party in Illinois was born yesterday at the state labor convention. More than 2,000 delegates from all parts of the state were present. The condemnation of members of the Illinois house of representatives who voted against the Soderstrom injunction bill Wednesday was one of the first official acts of the convention.

Leaders in the organization declared the new Illinois Labor party was only a precursor of what was contemplated in the future, when a committee will be appointed to call a national convention.

More than \$2,000 was raised to meet the expenses of organizing.

The convention was called to order by Duncan McDonald, president of the Illinois Federation of Labor, who asked that the action of the legislature in refusing to act on the committees appointment be rescinded.

"Every organization with the temporary organization has it distinctly understood throughout the entire country and among the men in Prairie that the legion is a civilian organization and upon enrollment in it a member leaves all ranks behind him," said Maj. Granville Fortescue of the Eleventh division, one of the organizers.

Assail Illinois Lawmakers.

The regular program, however, soon overshadowed by Charles Dold, chairman of the Cook county organization, who moved that the convention ignore the legislature. He declared the action taken in the house yesterday in defeating the Soderstrom bill proved what a distinct thing the legislators were from the creatures of organized business and labor of the Illinois Manufacturers' association.

He read a long letter said to have been sent out by John M. Glenn, head of the association, which asked the lawmakers to defeat the labor measure. Glenn's name was bussed by the delegates.

John Walker, former president of the Illinois Federation of Labor, took the floor in opposition to Mr. Dold, and said it was the duty of the delegates to see the legislators and bring what pressure they could to bear to push the labor bills now pending, regardless of what happened in the past.

The debate lasted for some time, a standing vote finally being taken to adjourn.

Seek Aid from Socialists.

It is the intention of the delegates, according to some officials of the party, to call a national party which will attempt to control public action in problems affecting labor directly. The party plans to have an entire slate ticket in the field in 1920.

"Strength for the new party will be drawn in part from the Socialists," Mr. Dold said, "and the only use for that party in the future will be as a dumping ground for radicals."

The following committee chairmen were appointed:

Organization—William Stacey, Chicago.
Finance—Waldo Cross, Decatur.
Organization and by-laws—C. M. Mateen.
Editor—Allen R. Harwood, Taylorville.
Legislation—John H. Walker, Danville.
Resolutions—John Fitzpatrick, Chicago.
Finance—Al Towers, Belleville.
Organization—Edward N. Neekels, Chicago.

Money Orders Now Good
in Alsace and Belgium

Money orders can now be drawn on Alsace and Alsace-Lorraine, J. M. Hubbard Jr., superintendent of the money order department of the Chicago post office, announced yesterday.

Restrictions on money orders still hold with Austria, Italy, France, Poland, and Switzerland, he stated, because of the high rate of exchange.

The post office will not issue money orders totaling more than \$20 a month for any individual to any of these countries.

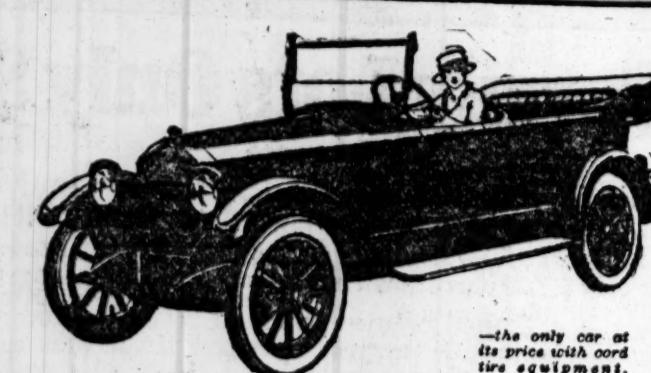

LEGION DELEGATES MUST BE 60 PER CENT ENLISTED ARMY MEN

POLICE PENSION FUND CAMPAIGN GAINS ACTIVITY

NEW YORK, April 10.—State branches of the American Legion recently formed organization of American Veterans of the World War were notified today from temporary national headquarters here, that, to preserve the democratic nature of the association, 60 per cent of the delegates to be elected to the national caucus in St. Louis on May 8 must be enlisted men.

This place is held by Patrolman Michael J. O'Connor of the Town Hall station, who is campaigning for reelection. The election will be held April 21. A committee of policemen is now at Springfield advocating new pension laws.

The Detective Sergeants' association will hold its election of officers next Sunday. William Kennedy and William Enright are rival candidates to succeed Sgt. Jeremiah Sullivan, who resigned recently.

SMALL BUILDING JOBS SPEED UP; BIG ONES WAIT

Survey of 153 Cities Reveals Few Contracts Over \$350,000.

Building conditions in the central west show increased activity in small unit construction work, while capital is slow in starting big buildings according to the latest information gathered by the F. W. Dodge company, a national organization which keeps close watch on all contracts.

"There is little money in construction," said J. M. Wright, general manager of the Chicago office. "Capital feels shy about building material prices. What is needed is stabilization of these prices by state and federal commissions. A man does not want to invest \$300,000 in a building now unless he is certain that some one else may be able to put up the same building for \$350,000 in two years."

"We are in a high price period and the people feel that the wartime inflation should end some time. I do not know. It is possible that certain materials of building may go down in price."

Figures for 153 Cities.

The Dodge company building figures, compiled from actual contracts, as well as city permits, which sometimes come long after the contracts are made, show Chicago building figures for Chicago and 152 other cities for January and February.

During this period Chicago showed a 58 per cent loss in January this year over January a year ago. For February there was a 26 per cent loss over the corresponding month in 1918.

There were ninety-nine new buildings contracted for in January at an estimated cost of \$1,630,354. During February there were 197 new buildings at an estimated cost of \$1,758,150.

National Conditions Improved.

National conditions show an increase in building contracts over 1918, though it is pointed out in the report that the purchasing power of a dollar is greatly diminished. Little improvement is shown in the average value of the individual building contracts. The average estimate for February was \$1,900. Of the 153 cities reporting, ninety-seven showed gains over 1918.

When the central west building and engineering operations are taken as a group the contracts awarded this year show a decided increase over last year but are less than the 1917 figures. The figures are for Illinois, Indiana, Wisconsin, Michigan, and parts of Missouri and eastern Kansas.

Builders are watching with interest the progress of the senate committee investigation into the high cost of materials. The committee will resume its sessions this morning at the Hotel La Salle.

PAYS DEPOSITS TO ALL WHO ASK, MOVED BY RUMOR

Garfield Park Institution Called Solvent by Bankers.

Five hundred depositors, alarmed by anonymous rumors, thronged the Garfield Park State Savings bank, 4004 West Madison street, yesterday and precipitated a run. No one could trace the origin of the gossip; nor could the depositors be told exactly what had been paid out. But up to 9 o'clock last night, when the last of those who demanded their money had been paid, about 500 accounts had been closed and approximately \$200,000 withdrawn.

The bank's total depositors number 11,000 and the sums entrusted to it exceed \$2,000,000.

Continental Banks.

Twice the money van of the Continental and Commercial National banks, which had been held in an attorney, rolled up to it, and trunks of currency were borne within. Thus reassured, many of the alarmed depositors reconsidered, and left the line; while from business men of the community a steady stream of checks and currency flowed in.

John E. Decker, president of the bank, said: "I am sure we would have been compelled to make immediate payment as long as there remained a depositor who wished to withdraw, but he thought, last night, the crest of the run had been reached."

"I am utterly unable to understand it," he said. "The bank is absolutely solvent, and one of the strongest in the city."

Our largest depositors are among the most unconcerned. Armour & Co. sent us funds this morning immediately learned of the run. The deposits of the Metropolitan, John Hancock, and Prudential Life Insurance companies are undisturbed, as are those of the gas and telephone companies. These firms realize that the bank can meet every demand imposed upon it."

No Cause for Alarm.

His statement was confirmed by Frank Van Vickle, vice president of the Continental and Commercial, who following the second shipment of money, gave out the following for publication:

"The Continental and Commercial is reserve agent for the Garfield Park State Savings bank. I have just had an audit of the bank's affairs and find it is absolutely solvent. The securities are all edged. We have advanced the bank all the money it needs. The depositors who are withdrawing their money are acting unwise, since there is no cause for being alarmed."

Morris War Savings Society Leads Nation

The War Savings society of Morris & Co. is the champion war savings society of the United States, according to a letter from the treasury department, just received by the Chicago packing company. The letter was signed by W. Ward Smith of the savings division, war loan organization.

CHADSEY DENIES SCHOOL BOOKS WILL BE CHANGED

Persistent rumors predicting the adoption of new text books in Chicago public schools were denied yesterday by Supt. C. E. Chadsey.

The fact is that all of the standard school works are equally good from the instruction standpoint. A minor change is required now and then in the text for some particular class, but

educators are all opposed to any general change. history series for the schools require serious study. In our Americanization campaign we must be careful not to allow personal opinions of the writer to tinge class work. When peace comes, if it ever does, it is probable that the geographies now in use will be revised."

President Jacob M. Loeb of the school of education pledged cooperation with Dr. John H. Robertson, public health commissioner, in a movement to retain the two hundred school physicians and nurses now employed Monday.

Michigan Wets Demand Recount of Dry Vote

Detroit, Mich., April 10.—Charging that "wholesale fraudulent reports have been made by the dry forces in a number of instances," Charles W. Norton, treasurer of the campaign committee of the Michigan Hotel Men's association, in a signed statement given to the press today, announced that a recount will be sought of the vote cast on the wine and beer amendment Monday.

Writer Finds.

MAUDE MARTIN EVEREYS
writer of eggs, which is a timely
topic to be speaking of, seeing as
she is in the Offing.

"I wish to gosh the prices would
be lower," says John Mitchell & Co.,
Chicken boulanger, South Water street.
"We don't mind paying 50 cents a dozen
when they're 50 cents a dozen than we do when
they sell a dozen for 20 cents. In
fact, we have a hard time hustling
out to pay the drat bills when a
lot comes in for \$5,070."

The export demands keep the eggs
costly. The chickens in Europe
have been reduced in numbers, if not
entirely wiped out, hence we export eggs
for humanitarian reasons. Last week
we sent 100,000 eggs to England,
Sweden, and Holland.

The Babes in Europe.

So Mrs. Housewife, when you gaze
with longing eyes at a basket full of
necessary fresh laid eggs with a
smile beyond a simple pocketbook
qualification, the undernourished child
wants the waters, and instead of that
delicious angel food cake, make a batch
of cookies.

The South Water street merchants
claim the farmer is not being stinted
of any profit at the present rate of
eggs. The farmer drags in a
couple of dozen or so of freshly laid

eggs and sells them to the country gro-
cery store at perhaps 20 cents per
dozen. Then the commission mer-
chants go around and gather up
enough to make a carload. The whole-
sale merchant then he makes a
carload worth \$5,000—the most he
gets now is \$60 for handling the goods.

"Some firms," says John Mitchell & Co.,
"will handle a load valued at \$5,000
for \$30, but we consider that hardly
worth while when you consider labor,
time, and trouble."

The Numerous Egg Family.

Did you ever know how many
grades of eggs there are?

More than nine. The egg in its nat-
ural state may be a simple object to
the casual eye, but it is appalling to
think how intricate a commission mer-
chant may make them.

First, there are the fresh gathered
eggs. (By retail grocers.)

Then the fresh. (Purchased from
country grocers by commission mer-
chants.)

Next the storage packed firsts.

Large, clean eggs and small clean
eggs and "dirties." (If the dirty ones
are polished up they have to be eaten
right away.)

And checks or dented eggs. (Hen
gets annoyed and pecks at egg.)

Cheaper Than Meat.

In behalf and extension of the
high cost of eggs, Dan Coyne points

out that a dozen of good size and
quality will average about a
pound and a half of solid nourishment
—equal to a pound and a half of meat.
And nowadays the eggs are cheaper
than the meat.

Well, and there you have it. Just
now the export demands and the East
tide needs and the cold storage sea-
son call for the humble egg and keep
its market value amongst diamonds
and sapphires.

But then the outlook is not so dark.
Yesterday the market quoted the egg at
42½—today it is 40½.

Just as a warning to the pride of
any hen it may be well to state that
around Easter time duck eggs and
goose eggs are much sought after.

Three Attack and Beat Man
Into Unconsciousness

George W. Hess Jr., 1442 West Gar-
field boulevard, son of George W. Hess,
head of the Hess Drug Company, 140 North Dearborn street, was severely
beaten last night by three young
men in front of a poolroom owned by
John Tracy at 5904 South Ashland avenue.
He was unconscious for an hour.
The Englewood police took him home.
Neither the victim nor his father could
explain the attack.

The Babes in Europe.

So Mrs. Housewife, when you gaze
with longing eyes at a basket full of
necessary fresh laid eggs with a
smile beyond a simple pocketbook
qualification, the undernourished child

together the study of psychology and
physiology. Dr. Thomas A. Storey,
secretary of the War Department's
child welfare board, in Washington,
warned educators against the physical
decay of the nation.

About 800 delegates were present at
yesterday's session. The convention
will continue through Saturday, when
Maj. Gen. Leonard Wood will address

the educational leaders.

William M. Roberts, superintendent
of night schools, returned from Spring-
field yesterday with favorable reports
concerning the vocational education
bill now before the legislature.

Charles E. Chadsey, superintendent
of Chicago schools, at the afternoon
session of the association convention
in the Congress hotel declared the
army can blame the school for much
of the physical inefficiency of many
soldiers.

"I hope," he said, "that should come
to country make another call at some
future time this condition will not be
repeated."

Charles H. Judd of Chicago universi-
ty advocated the correlation of physi-
cal and mental training and bringing

ALLEN'S FOOT-EASE

The
Antiseptic
Powder.
Shake it
in your
Shoes,
Use it
in your
Foot-Bath

Use it in the Morning

And walk all day in comfort. At night, sprinkle it in the
foot-bath, and soak and rub the feet. It freshens the feet,
takes the Friction from the Shoe, and by protecting your
hose and stockings from this friction, saves ten times its
cost each year on your stocking bill.

For over 25 years Allen's Foot-Ease has been the
STANDARD REMEDY for hot, swollen, smarting,
tender, tired, perspiring aching feet, corns, bunions,
blisters and callouses. It acts like magic—No plasters or
grease, clean, sanitary and cooling.

You will never know what real foot comfort is until
you have used Allen's Foot-Ease. What better proof
than that the Plattsburg Camp Manual advises men in
training to shake Foot-Ease in their shoes each morning.
You should have the same comfort for your feet.
Sold by Drug and Department stores everywhere.

GAS MEN FIGHT CITY'S RIGHT TO CROSS-EXAMINE

Hearing Is Halted While
State Engineer Is Wit-
ness Elsewhere.

The public utilities commission's hearing of the Peoples Gas Light & Coke company's plea for an increase in rates caused an unexpected halt yesterday afternoon when Commissioner Frank H. Funk announced an adjournment until next Wednesday. The reason for the delay, he explained, is that A. S. B. Little, chief gas engineer for the commission, must appear as chief witness in another inquiry involving the same two cities.

Mr. Little appeared yesterday after-
day, presenting additional complaints registered with the commission by cus-
tomers of the gas company. Mr. Little
will conclude his direct testimony next
Wednesday, but will not be called for
cross-examination until April 21.

Wants Week to Prepare.

Attorney Timothy F. Mullen, repre-
senting the gas company, told the com-
missioner that it would require at least
a week to prepare for the cross exam-
ination. Each case cited by Mr. Little
will be investigated in the company's

records before making an effort to
cross examine him.

Attorney Mullen protested the right
of Donald R. Richberg, attorney for
the city of Chicago in gas litigation, to
cross examine Mr. Little.

"There are two parties to this case,"

he said. "The gas company and the

others. The City of Chicago we regard

as against us, therefore Mr. Little is a

witness for us, just as the com-
mission, and counsel for the city has

no right to cross examine."

Commissioner Funk will rule on

cross-examination when the hearing

is continued Wednesday.

Complaints Presented.

Among the complaints presented by

Mrs. Minnie Butler, 1733 West Mon-
roe street, allowed refund of \$3.65;

commission's estimate would allow re-
fund of \$6.38. Disputed bills for De-
cember of \$29.54 and January \$10.65

were presented with evidence that high-
lights were taken for the previous month in

1918 had been \$6.05.

A. Von Ahlengen, 448 North Clark
street, charged for 7,600 feet while trans-
cript furnished commission showed the
meter had registered 2,400 feet less

than nothing for the month which this
bill covered.

M. Smith, 1440 North Rockwell,
street; received monthly bill for \$57,

which should have been \$37.63. The
commission allowed the difference as a
refund.

Clerical Errors Costly.

Dr. M. Forno, 1440 South Halsted
street; received bill marked "No adjust-
ment," but commission's auditors
allege mistake involving 10,000 feet of
gas. Company's own auditors found
mistakes of 10,000 feet, but Mr. Little
says this is incorrect.

The case in which Mr. Little will testi-
fy today before the commission is the
protest of residents of De Kalb and
Sycamore, Ill., against the quality of
gas furnished those cities and Sterling.

CLOSED DOORS MASK SAILOR'S DEATH INQUIRY

Roosevelt Will Probe
Great Lakes Edict in
Moscovitz Case.

The court of inquiry in the case of
Samuel B. Moscovitz, ordered by the
navy department at the behest of
relatives and friends to ascertain "the
complete facts concerning his death
and alleged abduction from Detroit,"

convened yesterday at Great Lakes.

Moscovitz jumped from an eighth
floor window in the Edison building
after being questioned by naval intel-
ligence officers. He died the day fol-
lowing. Secrecy was thrown about the
affair until a summary order from
Washington directed a public inquest
by the naval authorities.

Order Inquiry Secret.

Some days ago the navy department
announced that the inquest would also
be open, but when newspaper
men reached Great Lakes Naval Training
station yesterday they found them-
selves barred.

Reporters sought Rear Admiral Wil-
liam A. Marshall, president of the
court of inquiry.

"Does that mean the newspapers
will be unable to obtain information from
the daily testimony and develop-
ments?"

"Yes."

A Naval Custom.

"What is the idea?"

"It is a naval custom."

Attorney Marcus Pollakay, who rep-
resents the Moscovitz family, endeav-
ored to obtain permission to retain
his own shorthand reporter. The
court deferred decision until it had
heard from Washington.

THE TRIBUNE'S correspondent there-

last night informed Assistant Secre-
tary of the Navy Franklin D. Roosevelt
of the censorship ruling. He said:

"I can do nothing tonight, but I will
investigate tomorrow morning. If there
is no good reason for holding the hearing
behind closed doors I will order it

open."

CAMP CRANE CLOSED.

Albion, Pa., April 10.—Camp Crane,
army ambulance service training camp, was

officially closed today by Camp Comman-
der Lieut. Col. Richard T. Sleath. The camp was

opened in May, 1918, with 5,000 men and

23,000 men received their training here.

HERE ARE MEN IN CONTROL OF M.V.L. POLICY

Council of Nine Has Authority to Direct Activities of League.

By OSCAR E. HEWITT.
Who is the Municipal Voters' League? Mayor Thompson and his friends have been clamoring loudly for its identity. In effect, he has charged that it is the tool of public utility corporations and he would "tear off the mask" and show its inner workings. A grand jury investigation has been threatened and a legislative inquiry has been suggested. The city hall paper, in its issue dated April 1, says that it "is composed of a small number of very rich men who have axes to grind," and then adds: "The league is a semi-politically active local politics. The very fact that the names of those who really control it are withheld from the public is enough to condemn it." Some information on the subject was collected yesterday. The names of the officers of the organization are readily obtainable.

Officers of League.

Samuel Adams, president, 33 Bellevue place, senior member of the law firm of Adams, Follansbee, Hawley & Storey at 117 South La Salle street. There are many law offices in town which far surpass this in furnishings and trimmings. Adams was special traction counsel to the Municipal Voters' League and the most persistent advocate of municipal franchises of the transportation lines which the municipality had had for twenty years. While Walker E. Maher was secretary of the inner Adams, although a Democrat, and they acquired the first government owned railroad in the United States, it was suggested for corporation counsel just before former Senator James Hamilton Lewis got the position under Dunne. The president of the league is a graduate of Harvard and Northwestern law schools, and at one time was a law partner of Edgar D. Adams.

Harold Ferris White, vice president, 114 North University avenue, is also a lawyer. He has been connected with the firm of Eastman, White & Hawchurst since 1901. Their offices now are at 108 South La Salle street. Mr. White is a native of Chicago, a Republican politician, and has been a member of the board of directors of the United Charities and president of the stock yards council of that organization. He is of modest appearance, which probably indicates a true trait, because his name does not appear in the Book of Chicago.

Edward Eagle Brown, treasurer, was born in Chicago in 1885 and is a son of Edward Eagle Brown. He lives in Chestnut street and has an office at the First National Bank building. From his location in the building it is certain he is connected with the legal department of the bank. He is a graduate of Harvard and has been practicing law in Chicago since 1908. He is a member of a number of clubs, and in political complexion is a Democrat.

Joseph Cummins, secretary, was born in a farm in Ohio, but has been in Chicago long enough to have been one of the attorneys for the World's Columbian exposition. He is a graduate of DePaul college, Michigan, or which he graduated in 1908.

He is said to be a Democrat but is unusually independent in local voting. His office on Dearborn street has no indication of luxury, and it is impossible he is one of the very rich men who have "axes to grind" in the management of the league.

Executive Committee.

The executive committee of the league had a meeting yesterday, as usual after each aldermanic election. All of the officers above named were present, except Treasurer Brown, who is out of town on business. He is expected back in the city next Monday.

The meeting was held at a 12:30 o'clock luncheon in room No. 6-2 of the City Club. The notice of the meeting was posted in each elevator and on the bulletin board, so that any one who happened along that way could hardly have missed it.

In addition to those indicated there was present:

Dr. Graham Taylor of the Chicago Council.

Allen B. Pond, the architect, and one of the original members of the executive committee of the league.

Hollings Fairbanks, former secretary of the league.

Loung Rosenthal, former president of the league.

Samuel Watkins, assistant secretary of the league.

Taylor and Rosenthal came late—it was a trifle after 2 when the former arrived. Adams left early because of an injured toe, and Pond followed. The others stayed until after 3 o'clock and apparently were surprised by a newspaper reporter who was waiting for their adjournment. No information was given out regarding the discussion in the meeting nor concerning any action contemplated. It was evident that the persons present devoted most of their conversation to the attacks which daily are being made upon the organization.

Not all of the men present are members of the executive committee. For example, Loung Rosenthal is not.

This executive committee is in reality the league. To put that sentence in the right light, it is advisable to go back into the history of the league.

It was formed in 1886 when it was ascertained the city council was "as bad as the decent citizens could stand."

Taylor was the dominating figure in

The Chicago Daily Tribune.

SOMEBODY IS ALWAYS TAKING THE JOY OUT OF LIFE

[Copyright: 1919: By New York Tribune, Inc.]

STREET CAR MEN HINT AT STRIKE IF WAGES DROP

Appeal to Lowden, Mayor, and Employers to Keep the War Scale.

A letter regarding wage conditions was dictated yesterday night by the street car men's union leaders and sent to Gov. Lowden, Mayor Thompson, the state utilities commission and the Chicago Surface Lines. The present scale of wages awarded last August by the National War Labor board automatically ceases when peace is officially proclaimed. The union leaders say that because of living costs it is impossible to go back to the old scale.

According to them, it means a reduction of 43.3 per cent in the minimum and more than 28 per cent in the maximum rate. In part the letter says:

"The wage now prevailing was awarded the electric railway workers of Chicago to enable them to meet the increased cost of living.

Living Costs Soar.

"Since this wage was established there has been no decrease in living costs. While it is true that the war is drawing to a close, the reason for the continuation of this wage is in the fact that more strenuously emphasized in mounting costs, and the best authorities on this subject advise us that costs will continue to soar for some time to come.

"We know we can scarcely maintain our families now, and to accept a wage reduction would mean that our wives and little ones would suffer for the necessities of life. We appeal to you as the representatives who have in your hands the power and authority to prevent this situation, for we want to impress upon you, in the name of our wives and little ones, that we will not be driven back into starvation without the most vigorous protest.

Should Have Prevailed Before.

"We realize that the wage awarded by the war labor board should have remained a long time before and that even in the normal period prior to the war this wage would have been little enough for the proper support of our families. To take this wage away from us would not provide our wives and children to want, jeopardize their health, and inflict suffering upon them.

"We, therefore, urge you to realize the gravity of the situation and to spare us the necessity of protecting our homes and loved ones against any attempt to reduce to a lower level the rate of wage that we now find insufficient to maintain our families with the comforts they are entitled to.

"All these observers are aware of the deep social unrest that has followed the signing of the armistice, and the best thought of our country is now devoting itself to a correction of the evils responsible for this unrest. Nothing worse could happen in this great city of Chicago at this time than to force our electric railway workers into a position where they would be at the same hall at 10 today. He is hailed as the 'world's greatest test medium,' and has been on the platform for many years and Lake street.

They were returning in Lake street, opposite a vacant lot, between North Taylor and Humphrey avenues, a man stopped them. Pointing his finger at Janet, he said:

"Come here, I want to talk to you."

Assassin Pursues Child.

Then he attempted to seize her. But she eluded him and, with Elizabeth, fled north in Taylor avenue. Elizabeth ran on the porch of a house and escaped. Janet continued running. The screams of the girls aroused the neighborhood.

Sheridan lives at 126 North Taylor

where he is a salaried man in his home. She tripped and fell. The man overtook her and stooped to seize her.

A bullet from Sheridan's revolver clipped past his waist line. He started running and opened fire on Sheridan, who was about fifty yards behind him. Sheridan returned it. The chase continued for about three blocks. About half a mile away, when the man ran up an alley and escaped.

Sheridan reached the Oak Park police and a detail searched the neighborhood. The Austin station of the Chicago department also was kept a watch. The man is described as about 35 years old. He wore a dark fedora and a brown overcoat.

Children Unnerfed.

Janet and Elizabeth were unnerved by the experience. At her home last night Janet said:

"We didn't see him until he was right on me. He made a grab for me and I ran. I was never so frightened

in all my life. He had such terrible eyes. They seemed to go right through you."

As I continued running, I could hear him puffing behind me. I began screaming. I dropped all my articles. So did Elizabeth. He kept gaining on me and was right behind me when I tripped and fell. It was a good thing Mr. Sheridan happened along."

Sheridan said last night that he could have shot the man, but that he was not sure enough of his criminal status to take a chance, as he had no opportunity to talk with the girls until after he had returned from the chase.

Question after question he answered rapidly, nervously, with hardly pause. Half way through the evening's "work" he hesitated a half second with a folded slip in his hand. "This is about a murder," he said. "I have a family concerned about my safety. I cannot answer this in public," and he turned it over to the waste basket.

One slip he threw discretely, as far as he could get away from it.

"That's about that damned dog," he exclaimed. A wealthy woman, it was explained, lost a pet dog, deformed, some time ago and has followed him about since asking after its whereabouts.

**John Proves Again
the Barrymores
Have "Something"**

"THE TEST OF HONOR."
Produced by Paramount.
Directed by John S. Robertson.
Presented at the Orpheum.

THE CAST.

Martin Wingate.....John Barrymore
Julia Holland.....Constance Binney
Bath Curtis.....Marcia Maean
Dr. Lemley.....Robert Schable
Mr. Curtis.....J. W. Johnson
Judge Ferris.....Burgess Cooper
Love.....John Barrymore
Mrs. Farrel.....Nora Hay
Alma Aiken.....Aline Aiken
Zeko.....Fred Miller

By Max Tinée.

[Got quite a shock when I saw the name of that director. Thought Dr. John Dell had been putting something over. But I see the middle initial is different.]

The John Barrymore of this picture is not the comedian John Barrymore. He is the tragedian of Martin Wingate who has him in his power now. After seeing him in the part I can quite understand the viewpoint of those who, after his "Peter Ibsen," declared that he would ever after be Peter Ibsen to them. His bright moments will, for me, be shadowed by the black moments which I have seen him depict. What's more, though, do you know his comedy and tragedy are not so different after all? Both are characterized by an eccentric, uncanny suggestion of ribald, sinister second sight—Mr. Hyde chuckling at what he knows of Dr. Jekyll.

Mr. Barrymore in this picture is the victim of circumstance in the person of a false wife, who means false to Marcia Maean, when she tries! She's the best little blood con-greaser! Convicted of murder, he serves seven years in the penitentiary and then returns to haunt in person the woman who has brought his ruin. The fact that she is now the wife of a respected judge makes his revenge but more sure. His pedigree is a packet of letters which, made public, would bring her castles tumbling about her ears and put her where so lately he had been.

It must not be supposed that the lady goes down without a struggle. She, her unscrupulous present paramour, and poisoned headache powders figure desperately for a time in a plot to do away with the gray-faced and implacable human shadow of the past.

There is a snub nosed, fluffy haired ward of Martin Wingate, however, to reckon with. She it is who averts further tragedy and brings the wrongdoers to justice. The snub nosed, fluffy headed child is adorably played by Constance Binney.

The shock Mr. Barrymore gives you upon his return from gaol is the greatest of tributes to his artistry in make-up. The prison pallor, the eyes hollowed from sleepless nights, the lines etched by bitter thinking—all are there, realistic enough to make you shudder and turn away.

Well, it's in the blood. No denying the Barrymores have a "something" omitted from the composition of the rest of us.

The Successful Home Gardener

BY J. F. H. HEIDE.

No. 30.

QUESTIONS AND ANSWERS

Q.—1. Late in August I sowed seeds of perennials in a mat, which I later placed on a solid bed of leaves in a shallow excavation, protected it with a glass saucer and leaves all around. Though freely ventilated, some seedlings turned yellow in December. Could they have survived with additional cover of mats? A lot of seedlings about to bloom turns brown and falls thus yearly. What is the remedy? 2. Will a Paper White narcissus bulb bloom a second time? 4. What variety of hardy chrysanthemums conforms nearest to the large, incurved, shaggy, hothouse types? 5. Is the operation of a compressed air sprayer, to spray a garden, a woman? What method do gardeners use to prevent the white grub?

A.—1. The yellowing does not matter. As they are perennials they will sprout again this spring if not killed by heavy freezing. The saucers should have been covered twelve to fifteen inches deep with straw, leaves, or other material. Uncover in your latitude "Tens" (Hauter Ind.) about March 1, and ventilate by degrees, raising the saucers a little at a time according to the prevailing weather.

2. Obviously frozen. To avoid this plant during the first week in November, not less than four inches deep. Apply a foot of straw, leaves, or leaves when the ground is first frozen solid. This will retard spring growth and so prevent freezing.

3. Yes, and indefinitely after that, under proper soil conditions.

4. All large dealers list a special group of hardy outdoor varieties in all the seasonal colors.

S. N.

6. Lime and wood ashes, incorporating it with the soil. On large areas rotate crops, plow or spade in fall, give pigs or chickens the run of the land at every cultivation or hand gather all that are turned up; jar the may beetles (the parent insect) from trees and sheets spread beneath at daybreak and burn them at sunrise. Every beetle destroyed before it lays its eggs means the destruction of some fifty possible grubs. Hence the community should join in their capture.

Q.—About how many plants will one bushel of sweet potato produce?

E. D. A.

A. It is not safe to calculate more than 1,000. The excess will then enable you to select the sturdiest slips to plant from one-eighth to one-sixth acre.

Q.—I am interested in trying to find something that will cause grass to grow in my very sandy yard. An item from somewhere in THE TRIBUNE advocated serradella seed, more commonly known as clover of the sand. Where can I obtain the seed?

K. O. N.

A.—Serradella (*Ornithopus sativus*) is a leguminous forage plant of Spain and Morocco, and is not important here, probably not available on the American market. Your proper course is to build up a topsoil by manuring heavily, liming, sowing our own native sweet clover, turning that under again with manure, and then sowing native grasses.

There is a snub nosed, fluffy haired ward of Martin Wingate, however, to reckon with. She it is who averts further tragedy and brings the wrongdoers to justice. The snub nosed, fluffy headed child is adorably played by Constance Binney.

The shock Mr. Barrymore gives you upon his return from gaol is the greatest of tributes to his artistry in make-up. The prison pallor, the eyes hollowed from sleepless nights, the lines etched by bitter thinking—all are there, realistic enough to make you shudder and turn away.

Well, it's in the blood. No denying the Barrymores have a "something" omitted from the composition of the rest of us.

Children

Pupils Paint Scenery
for High School Play

"Behind the Front" a musical comedy

will be produced at the Hyde Park High school this afternoon and evening

for the new Liberty loan drive.

Mr. and Mrs. A. Smith of Highland Park have gone to Atlantic City.

Mr. Bernard A. Eckhart of 1530 Lake Shore Drive returned yesterday from a trip to the south.

Mr. and Mrs. Henry K. Chapin of Lakeview Avenue have returned from White Sulphur Springs.

Mr. and Mrs. Cyrus McCormick have returned from Washington, where they have been living, and again are occupying an apartment at 3330 Sheridan Road.

Robert J. Thorne of Lake Forest is general manager of the Onward Club awaiting the arrival of his wife from the south.

Mr. and Mrs. Charles H. Thorne have left the James O. Heyworth's house in Lake Forest for the summer and will return May 1.

Mr. and Mrs. E. E. Bolotz, who have been in Pasadena all winter, are now at Orange Beach for a visit before returning east.

Mr. Kellogg Fairbank will return Sunday from New York, where she is holding a meeting to inaugurate work for the new Liberty loan drive.

Mr. and Mrs. A. Smith of Highland Park have gone to Atlantic City.

Mr. and Mrs. I. Newton Perry and children of Lake Forest will return from a month's stay at Hot Springs.

Mr. Robert Hall Wiles of the Delano Hotel will leave today for Washington to attend the continental conference of the Daughters of the American Revolution. At the banquet to be given Tuesday Mrs. Wiles will be one of the six after dinner speakers.

From 4 to 5 o'clock this afternoon the College Club will hold its annual meeting of the executive committee of the collegiate bureau of soroptimists. Mrs. Bruce McLeish, Mrs. Karl Koessler, and Miss Alice Gersterberg will be hostesses, and there will be a program including numbers by Mrs. Fletcher Doherty, Miss May Boley, and Miss Elizabeth Brice, and a talk by Miss Helen M. Bennett, manager of the bureau.

The Sigma Tau Epsilon sorority will hold its annual convention today, tomorrow afternoon in St. Louis. Those attending from Chicago are the Misses Lenna Fitzsimmons, Amanda Koehler, Tamanian Petrie, Gretchen Ward, Zealma Ainsworth, Ruth Thomson, and Inoe Duncan.

The Geographic Society of Chicago will meet tonight at 8:15 o'clock at Fullerton Hall, Art Institute. A lecture will be given by Orpheus M. Schantz, who will have for his subject "A Settlement School in the Smokies and Its Environment."

Patricia Scheff will be an after the theater guest of the South Shore Council Saturday evening.

Bazaar for P. E. O. Fund.

To aid in the campaign for \$100,000 education fund, the P. E. O. sisterhood of Cook county will hold a bazaar tomorrow at the Hotel La Salle. The entire proceeds will go toward the national educational fund which is maintained for the educating of girls.

Four hundred applicants have been given money for schooling since the fund's establishment. The fund is maintained by personal and lodge gifts and the P. E. O. sisterhood is striving to increase the capital a celebration of its fiftieth anniversary.

Colonel Women's Chief Here.

Mrs. Robert Fowler, national president of the Colony of New England Women, was the guest of the local society of the organization at a reception and program meeting in the Blackstone yesterday. Miss Leah Brown, president of the Illinois society, presided, and announced that the society would be in charge of the home folks in the city hall all of next week.

MSS. Concert by Chicagoans.

The Chicago Artists' association announced a concert of music in manuscript Tuesday afternoon, 2:30 p.m., in the rental hall of the Park Avenue Building. The concert will be followed by a concert, with Theodore Du Moulin, the cellist, and George Rassely, the tenor, as contributors.

* *

Lake View Society to Meet.

A business meeting to receive the report of the committee on nominations will be held at 2 o'clock Monday afternoon by the Lake View Musical Society in the Parkway hotel, and will be followed by a concert, with Theodore Du Moulin, the cellist, and George Rassely, the tenor, as contributors.

* *

JEANNE: YOU WILL HAVE TO

order a copy of the paper for the

night by the Kinzie community center

at the Kinzie public school, 150 West

Ohio street. Several hundred people,

young and old, will appear in the cos-

umes of their native lands, as the

members are mostly foreigners. There

will be a program including numbers by

Elmer Parulis will be in charge, and

the Twenty-first ward branch women's committee, Council of National Defense, has aided in making the cos-

umes.

* *

Playhouse Society to Meet.

A business meeting to receive the

report of the committee on nomina-

tions will be held at 2 o'clock Monday

afternoon by the Lake View Musical

Society in the Parkway hotel, and will

be followed by a concert, with Theo-

dore Du Moulin, the cellist, and George

Rassely, the tenor, as contributors.

Girls in Navy to

Join the Nation's

Job Hunters Soon

BY LUCY CALHOUN.

When you give a job, don't forget the yeomanettes.

The yeomanettes will soon be released from the navy. Several hundred of these girl sailors who enlisted from Chicago will soon descend upon their home town looking for jobs and Uncle Sam says they ought to have them. The pay which has been paying their salaries is \$15 a month, and if they continue in the service they would have to work for \$30 a month. So they will come home. What can the home folks do for them?

The United States employment service is getting ready to help these young women find work. It gave up more lucrative positions during the war to enter the government service. Mrs. Mary V. Hallas, head of the women's division of the federal employment bureau in Chicago, said yesterday that an attempt would be made to get business men in Chicago interested in seeing the necessity of placing the yeomanettes in good clerical positions.

"I have no sympathy with the unreasonable girls who before the war were getting \$15 a week and now completely spoiled by wartime salaries, refuse to accept a reasonable return for their services," she said.

"Nor have I any sympathy for the young girls who are leaving the smaller town where they have good jobs and flocking to the city. I do not see why Chicago should have to shoulder the burden of giving jobs not only to the soldiers, sailors, and women workers, but to everybody else. But these navy girls are surely deserving of good positions and we shall try to get them."

* *

Manual Training Class

of '98 in Annual Meet

The spirit of the late George F. Pullman of Marshall Field and other members of the old Chicago Commercial club hovered over the fifth annual reunion and banquet of the Class of 1898, October 10. The Manual Training school in the Hotel Sherman last night. Thirty members of the class were present. The school, the first of its kind in the world, was established by Marshall Field, George M. Pullman, and others at Twelfth street and Michigan avenue in 1893 and in 1902 it became affiliated with the University of Chicago. For sixteen years the class did not meet after its graduation.

* *

Community Dances

for Summer, Plan

of N. U. Settlement

Community dances, admission to which will amount to 10 cents for the entire evening, with no extra charge for checking wraps, have been arranged by the Northwestern University settlement for Saturday evenings in April, May, and June. Polish Union Hall, at Milwaukee avenue and August street, will be open April 12. The music department of the settlement is in charge of Mrs. Agnes Fletcher Doherty, Miss May Boley, and Miss Elizabeth Brice, and a talk by Miss Helen M. Bennett, manager of the settlement.

From 4 to 5 o'clock this afternoon the College Club will hold its annual meeting of the executive committee of the collegiate bureau of soroptimists. Mrs. Bruce McLeish, Mrs. Karl Koessler, and Miss Alice Gersterberg will be hostesses, and there will be a program including numbers by Mrs. Fletcher Doherty, Miss May Boley, and Miss Elizabeth Brice, and a talk by Miss Helen M. Bennett, manager of the bureau.

The Sigma Tau Epsilon sorority will be one of the six after dinner speakers.

Through the courtesy of Fred C. Aiken, the Hamilton club is able to present in its rooms this evening the motion picture, "Bolshevism on Trial," which conveys a warning to America of the red menace.

Vocals were tried out and dance steps discussed at a meeting and part rehearsal of the Junior league members yesterday at the Playhouse.

Mr. and Mrs. A. Smith of Highland Park have gone to Atlantic City.

Mr. Bernard A. Eckhart of 1530 Lake Shore Drive returned yesterday from a trip to the south.

Mr. and Mrs. Henry K. Chapin of Lakeview Avenue have returned from White Sulphur Springs.

Mr. and Mrs. Cyrus McCormick have returned from Washington, where they have been living, and again are occupying an apartment at 3330 Sheridan Road.

Robert J. Thorne of Lake Forest is general manager of the Onward Club awaiting the arrival of his wife from the south.

Mr. and Mrs. Charles H. Thorne have left the James O. Heyworth's house in Lake Forest for the summer and will return May 1.

Mr. and Mrs. E. E. Bolotz, who have been in Pasadena all winter, are now at Orange Beach for a visit before returning east.

Mr. Kellogg Fairbank will return Sunday from New York, where she is holding a meeting to inaugurate work for the new Liberty loan drive.

PARIS, April 11.—marine commander, torpedoing the *Laconia* off the Irish coast on April 27, 1917, and for the loss of his wife and daughter Capt. Berger, according to an interesting report in *Little's*. Recalling our life boats after the 18,000 ton Cunarder, Capt. Berger saw a slimy dark hulk in the surface among the German commandos by name—when asked us the name of just sunk and the sailors and crew moved off with no "You'll be all right," pick you up, so according to Mr. Gibbons, Capt. Berger realized the report as it known all German commanders are chosen from the right of the personal punishment.

[Mr. Gibbons was on board *Laconia* when it was

BY RICHARD H.
(Chicago Tribune Correspondent)
[By Special

BERLIN, April 9.—Germany never had a submarine base in America, but now has bases in Flanders. "Nor did Germany sink off the American mother ship or receive supplies from shore."

Capt. Bartenbach is now in command of German submarine service in Germany. He became a submarine service in Germany through the experiments of Capt. Bartenbach, the first submarine to be built in Germany. The Flanders coast, the possessed by Germany, command of Capt. Bartenbach.

Still in Germany, Capt. Bartenbach continues his submarine service in Germany. I asked him the question regarding the base of Germany, because I had argued that Germany had operated off our coast by a nearby submarine. Capt. Bartenbach said that German marines that had been sent to Kiel and received no pay.

One submarine which was absent five months commanded by Capt. Bartenbach reached America early in 1918. It didn't succeed to Kiel until January. Capt. Vonroske, who had been on the American coast last month, while another some visitors were on board.

Lives Pay for War
I wanted to find the *Laconia*, also the *Lusitania*. Capt. Bartenbach said the *Laconia* was sunk and the *Lusitania* by both of whom had died. The marines were destroyed.

Capt. Bartenbach, submarine, which he said they were all of capable of remaining at sea and not drawing for five months and additional supplies of

I have read many two years in magazines and periodicals and discourses writers think usually destroyed by me believe that is the case. In my talk with Capt. Bartenbach, he said they were all of capable of remaining at sea and not drawing for five months and additional supplies of
